## PREFACE

As thousands of BJP Karyakartas from every part of the country assembled in New Delhi to attend the two day National Convention of the party, the message of 'Viksit Bharat' has found resonance in the entire nation. The dream of Viksit Bharat as Modi's guarantee is re-assuring the people that they can march ahead towards a bright future. The last ten years of transformation that the nation has witnessed under the visionary and dynamic leadership of Prime Minister Shri Narendra Modi is in itself a guarantee that the nation is ready for a huge leap in the coming years. Who can forget the deepening crisis and misrule, widespread corruption, massive loot of public funds, spiralling inflation, declining GDP growth, fast-depleting forex, and policy paralysis of the Congress-led UPA era? The nation still remembers those dark days when negativity and pessimism ruled the roost, resulting in squandering away all the earlier gains and resulting in what is now called the 'Lost Decade'. Today, when the last ten years of 'reform, perform, and transform' with the mantra of 'speed, scale, and skill' have taken the nation out of that Congress-led UPA era of morass, a completely transformed nation looks forward to embracing a new future with an eye on the vision of Viksit Bharat.

While the entire ambience in the National Convention reverberated with slogans like 'Abki Baar, 400 Paar', 'Phir Ek Baar, Modi Sarkaar', and 'Modi, Modi', the boundless enthusiasm of the karyakartas represented the mood of the people across the country. As every karyakarta is charged with a new resolve to take the nation towards achieving the goals of 'Viksit Bharat', the people are showering their blessings in abundance.

We are publishing the addresses of PM Shri Narendra Modi, BJP National President of Shri Jagat Prakash Nadda, Defence Minister Shri Rajnath Singh and Union Home & Cooperation Minister Shri Amit Shah for our esteemed readers. We hope that our readers will be able to understand their views by reading these speeches and further strengthen their efforts in realising the vision of 'Viksit Bharat'.

## TIME HAS COME TO CHANGE THE DESTINY OF OUR COUNTRY: NARENDRA MODI

In a momentous occasion graced by the Hon'ble Prime Minister Shri Narendra Modi, BJP National President Shri Jagat Prakash Nadda and other senior leaders of the party, the two-day National Convention of the BJP commenced at Bharat Mandapam in New Delhi on 17 February, 2024. Nearly 10,000 delegates from across the country participated in the

convention. As per the tradition, BJP National President Shri Jagat Prakash Nadda addressed the inaugural session and Prime Minister Shri Narendra Modi addressed the concluding session of the convention.

Addressing the concluding session on 18 February 2024, PM Shri Narendra Modi said, “The time has come to realise the dreams envisioned by our freedom fighters, and for this, the BJP and its government are indispensable”. Following is the full text of PM’s address:

### **Bharat Mata Ki Jai! Bharat Mata Ki Jai!**

I extend my congratulations to every BJP Karyakarta present here at the national convention and to those associated with every corner of the country. BJP Karyakartas tirelessly engage in serving the country 24 hours a day, every day of the year. However, for the next 100 days, let’s channelise new energy, enthusiasm, and confidence into our work.

Today is February 18th, and the youth who have turned 18 during this period will be casting their votes in the upcoming 18th

Lok Sabha elections. Over the next 100 days, let's come together, reaching out to every new voter, beneficiary, class, society, sect, and culture. By gaining everyone's trust through collective efforts, BJP aims to secure the maximum number of seats to continue serving the country.

Yesterday, I had the privilege of sitting with the party office bearers and spending the afternoon with all of you. I extend my congratulations to Nadda ji, his entire team, and each one of you. During the office bearers' meeting, as I listened to the year's work report, I was genuinely impressed by the relentless efforts of BJP Karyakartas for the society, even while being in government. Your dedication, day and night, through crises, is truly commendable, and it is all done for the glory of 'Mother India'.

The discussions and deliberations over these two days have further strengthened our commitment to ensuring a bright future for our country. Through Nadda ji, I convey my congratulations to all of you and to the workers from across the country for contributing to the success of this grand event with insightful discussions and inspiring topics.

Today, on behalf of all fellow citizens, I express my heartfelt condolences on the passing of Saint Shiromani Acharya Shri 108 Vidyasagar Ji Maharaj. His demise is a cause of sorrow for his followers, and we all mourn his loss. Personally, it feels like a significant loss to me. Over the years, I have had the privilege of meeting him on several occasions, seeking his blessings, and receiving his guidance. A few months ago, I changed my travel plans to visit him early in the morning, little did I know it would be the last time I see him. It has been my good fortune to be close to eminent spiritual figures for over 50 years, experiencing the power of the spiritual world.

Despite belonging to the Digambara tradition, he always displayed a deep awareness of events, promptly analysing and conveying his thoughts on important matters within 24 hours. Even after his extensive spiritual journey, he continued to inspire us all. Throughout his life, he maintained a gentle demeanour, connecting with people and dedicating himself to educating and providing healthcare to the underprivileged. His life serves as an inspiration for anyone committed to working for the welfare of the poor and

deprived. As India progresses on the path of development, I am confident that his principles and blessings will continue to inspire the nation.

The momentum India has gained in the last 10 years, the confidence to pursue ambitious goals, is unparalleled. It's not just my assertion; the world is acknowledging it loudly. The strides India has taken in every sector have instilled a grand resolution in every citizen, that of building a 'Viksit Bharat'. The country cannot afford to dream small or set insignificant goals now. Our dreams will be monumental, our resolutions will be vast.

This is not just my dream; it is the collective aspiration and determination of all of us to transform India into a developed nation. The next 5 years will play a pivotal role in this transformation. We need to work much faster than before, take a giant leap towards a developed India, and the first condition to achieve these goals is a resounding

**The consensus across the nation affirms that we have alleviated the nation's concerns about large-scale corruption and terrorist threats. The collective acknowledgment is that we have earnestly endeavoured to enhance the lives of the impoverished and the middle class**

return of the BJP to power. Opposition leaders are already chanting slogans that the NDA government has surpassed 400 seats, and to surpass this milestone, the BJP needs to reach the threshold of 370.

## **Why continue working so tirelessly?**

On numerous occasions, individuals express their sentiments to me, saying, "Modi ji, you have achieved a great deal. You have successfully implemented significant resolutions. Why continue working so tirelessly?" My friends, the entire nation acknowledges that a decade of impeccable governance, along with lifting 25 crore people out of poverty, is an extraordinary accomplishment. The consensus across the nation affirms that we have alleviated the nation's concerns about large-scale corruption and terrorist threats. The collective acknowledgment is that we have earnestly

endeavoured to enhance the lives of the impoverished and the middle class.

However, for those who believe that it's time to rest, let me share an anecdote. Once, during my second term as Prime Minister, I had a conversation with a seasoned leader. He said, "Becoming the Prime Minister is a significant achievement – you've attained that. You dedicated many decades to organisational work, served as Chief Minister, and assumed the role of Prime Minister again. Now, take a seat, relax, you've accomplished enough." His sentiment was influenced by his experiences in politics.

However, my friends, our purpose is not driven by politics but by national policy.

**BJP is channelling the power of the youth, women, the poor, and farmers to forge ahead towards building a developed India**

We are individuals who draw inspiration from Chhatrapati Shivaji Maharaj. When Chhatrapati Shivaji Maharaj ascended the throne, he did not proclaim that he had attained power

and would now bask in it. Instead, he continued with his mission. In the same vein, I am not someone who seeks personal happiness and prosperity. I am not advocating for a third term for the BJP government merely for the sake of wielding power. I am here with a commitment to the nation.

Had my concerns been solely about my household, I wouldn't have been able to provide homes for millions of underprivileged people today. I exist, stay vigilant, and tirelessly strive for the future of millions of children in the country. Modi's commitment is the aspiration of countless youths, sisters, daughters, and the poor in the nation. We are all dedicated to working day and night in a spirit of service to fulfil this commitment. What we have accomplished in the past 10 years is merely a milestone, instilling in us a newfound confidence to reach our destination. There is still much more to achieve for our country, for millions of Indians, to transform the lives of every Indian. There are dreams, there are commitments, and many decisions are yet to be made for this purpose.

## **BJP is channelising power of youth, women, poor & farmers**

Today, the BJP is channelising the power of the youth, women, the poor, and farmers to forge ahead towards building a developed India. Previously, there was a prevailing notion that governments may change, but the system remains unaltered. In pursuit of genuine social justice, we have revolutionised every system, discarding outdated ideologies and approaches. We have engaged with those who were never consulted before and, not only that, we have celebrated them. For instance, the most marginalised tribes among the tribals were never asked for their opinions. We introduced the PM Janman Yojana to them. Similarly, the concerns of the numerous Vishwakarma families were never considered. We instituted the PM Vishwakarma scheme for their benefit. The struggles of the thousands working as street vendors and on footpaths were often overlooked. In response, we implemented the PM Swanidhi scheme to address their needs.

**I hold the distinction of being the first Prime Minister to raise the issue of sanitation from the Red Fort. Moreover, I am the inaugural Prime Minister to voice disapproval, from the same historic platform, against the use of derogatory language targeting women**

## **Previous governments showed little concern for women**

Previous governments showed little concern for the interests and challenges faced by women. The grave issue of female foeticide demanded both heightened social awareness and stringent laws. In response, we initiated a nationwide movement called Beti Bachao, Beti Padhao, which had a profound impact. Our focus on the nutrition of girls and women was accentuated through a dedicated campaign, recognizing that a healthy woman is integral to delivering a healthy child. To ensure proper nutrition for pregnant women, the Matrивandana Yojana provided direct assistance to over 3.25 crore sisters. The Safe Motherhood Campaign conducted health

checkups for around 5 crore pregnant women, aiming to mitigate risks to both mother and child. In the realm of women's safety, we addressed widespread concerns by instituting the death penalty for heinous crimes like rape and expediting the judicial process for such cases.

I hold the distinction of being the first Prime Minister to raise the issue of sanitation from the Red Fort. Moreover, I am the first Prime Minister to voice disapproval, from the same historic platform, against

**The rejuvenation of Khadi has significantly benefited our sisters in the villages, providing them with newfound opportunities. To support working mothers, we extended pregnancy leave to 26 weeks**

the use of derogatory language targeting women. The dignity and respect accorded to women are paramount for us. Over the last decade, the BJP government has implemented numerous measures to enhance the lives of women. We distributed 10 crore Ujjwala gas connections and constructed 4 crore

houses, with over 3 crore registered in the names of women, empowering them as homeowners. To further empower women, we registered an additional 3 crore houses in their names. We ensured access to tap water for 10 crore families and provided toilets to 12 crore families, emphasising the significance of a dignified living space. We initiated the Suvridha Sanitary Pads scheme at Rs 1, catering to the hygiene needs of women. Additionally, we facilitated the opening of bank accounts for over 25 crore women and disbursed more than Rs 30 crore in Mudra loans to female beneficiaries.

## **Several initiatives to enhance financial empowerment of our sisters**

We have undertaken several initiatives to enhance the financial empowerment of our sisters and facilitate employment opportunities for our daughters. Ten crore sisters have been linked with self-help groups, and we have elevated one crore sisters to the status

of 'Lakhpati Didi.' The rejuvenation of Khadi has significantly benefited our sisters in the villages, providing them with newfound opportunities. To support working mothers, we extended pregnancy leave to 26 weeks and addressed problems faced by women working night shifts by reforming labour laws. In the realm of security forces, we doubled the recruitment of women in paramilitary forces and ensured their deployment on the front lines. Additionally, we opened the doors of Sainik Schools and Military Academies to welcome daughters, breaking gender barriers.

On this Republic Day, Kartavya Path resonated across the nation, echoing the strength of women power. Moving forward, 'Mission Shakti' will establish a comprehensive ecosystem dedicated to the protection and empowerment of women across the country. Fifteen thousand women self-help groups will receive drones, empowering 'Drone Didi' to infuse scientific and modern agricultural practices.

The ambitious goal is to elevate three crore women to the status of 'Lakhpati Didi.' The PM Vishwakarma Yojana will provide support to sisters engaged in traditional arts and crafts. The recently introduced National Education Policy promises to significantly benefit daughters in terms of education and skill development. Additionally, the creation of improved sports infrastructure near villages will pave the way for daughters to excel in sports.

**On this Republic Day, Kartavya Path resonated across the nation, echoing the strength of women power. Moving forward, 'Mission Shakti' will establish a comprehensive ecosystem dedicated to the protection and empowerment of women across the country**

Reflecting on the past decade, I am reminded of numerous bold and transformative decisions. We have demonstrated the courage to address long standing issues that lingered for centuries. The construction of the grand Ram temple in Ayodhya marked the end of a 5-century wait. After 500 years, the religious flag has been unfurled in Pavagadh, Gujarat. The Kartarpur Saheb Highway, pending for seven decades, was opened. After a 7-decade wait,

the nation was freed from Article 370. Rajpath, in a new avatar as the Path of Duty, emerged after nearly six decades. The demand for One Rank One Pension, pending for four decades, was finally met. The country received a new National Education Policy after three decades. After the same duration, women secured reservation in Lok Sabha and Legislative Assembly. We also had the courage to enact stringent legislation against the menace of triple talaq. The need for a new Parliament building, lingering for decades, was fulfilled. Every BJP Karyakarta can take pride in being part of these historic achievements.

## Preserving & enhancing our history

Preserving and enhancing our history is crucial for any nation to shape its future. In India, we have made significant strides in both preserving and enriching our historical legacy. Notable initiatives include the construction of the National War Memorial and the National Police Memorial.

**Preserving and enhancing our history is crucial for any nation to shape its future.**

**In India, we have made significant strides in both preserving and enriching our historical legacy**

Islands in Andaman were named after Netaji Subhash and Param Vir Chakra winners. The Salt Satyagraha Memorial in Dandi and the development of Panchteerth associated with Baba Saheb Ambedkar are noteworthy contributions. The Statue

of Unity, dedicated to Sardar Patel, was erected during our tenure. Our government declared 31st October as National Unity Day and designated 15th November as Tribal Pride Day. Additionally, we commemorated 14th August as Partition Day, 26th December as Veer Bal Diwas in memory of Sahibzadas, and declared 26th November as Constitution Day. Moreover, our efforts led to the United Nations declaring 21st June as International Yoga Day on behalf of our government.

While opposition parties may lack the ability to implement comprehensive schemes, they have no hesitation in making baseless

promises. Despite this, these political parties are now reluctant to make any promises. None of them have presented a vision comparable to ours. Our promise is clear – a 'Viksit Bharat'. The BJP is the sole party that envisions and works towards making India developed. We are on a mission to achieve this goal by 2047, coinciding with the country's celebration of 100 years of independence. Our resolve is to elevate India to the position of the third-largest economic power globally in our third term. This guarantee comes directly from me. When I speak of making India the third economic power, it signifies a profound transformation in India's economic, strategic, and cultural dimensions – a comprehensive expansion in every direction.

## Crucial to gauge the pace of our progress

It's crucial to gauge the pace of our progress. It took nearly 60 years for India to reach a one-trillion-dollar economy – a figure to remember. In 2014, when entrusted with the country's leadership, even the goal of reaching a two-trillion-dollar economy seemed ambitious. However, in the span of 10 years, we have

**I am pleased to announce that the youth of India have actively embraced the Vikas Bharat Abhiyan. Over the last one and a half years, we have silently worked on garnering suggestions for India's development**

successfully added another two trillion dollars to our economy. It took 60 years for the first trillion and just 10 years for the next two. While India was ranked as the 11th largest economy globally, we not only secured a position in the top 10 but moved up to the fifth spot. In the earlier ranking, when India stood at 11, the infrastructure budget struggled to reach Rs 2 lakh crore. Presently, as the fifth-largest economy, our infrastructure budget has surpassed Rs 11 lakh crore. This financial strength allows us to construct millions of homes for the underprivileged, ensure water reaches every household, and invest in healthcare, education, and road infrastructure. Achieving a position among the top three economies globally means a significant improvement in the standard of living for every Indian

family. Incomes will rise, public transport will modernise, new employment sectors will emerge, funding opportunities for Indian youth will increase, women will lead on all fronts, and farmers will utilise advanced technology, adding value to agricultural products and enhancing the overall quality of life for the people.

I am pleased to announce that the youth of India have actively embraced the 'Viksit Bharat Abhiyan'. Over the last one and a half years, we have silently worked on garnering suggestions for India's development. The government machinery has been deployed for this purpose, and more than 15 lakh people have participated in discussions about the vision for a developed India. It's noteworthy that half of these participants are below the age of 35, reflecting the vibrancy of our youth. We are progressing with a forward-thinking,

**To safeguard the future of farmers, we have initiated the Amrit Sarovar Abhiyan in every corner of the country. During the Amrit Mahotsav of Independence, instead of merely creating symbolic monuments, we took practical steps**

youthful approach, as these thousands of young minds contribute to shaping the roadmap for a developed India.

Today, India, brimming with youthful energy, is ambitiously setting substantial goals for itself. Those who set goals often achieve them right before their eyes. Our

plans include organising the Youth Olympics in India in 2029 and the Olympic Games in 2036. To contribute to a sustainable future, we are dedicated to making our Railways carbon-free, aiming to achieve net-zero emissions by 2030. Additionally, we are committed to achieving the target of 20 percent ethanol blending in petrol five years ahead of our initial deadline of 2030. India is formulating policies to attain the goal of net zero by 2070. This vision signifies the creation of numerous green jobs in our country in the coming years.

**We are reducing India's dependence on other countries**

A developed India will not be one whose future depends on

luck. Therefore, we are actively reducing India's dependence on other countries. We are setting ambitious goals for the country and are working towards them in a strategic manner. In the future, we envision an India that will not need to import edible oil worth lakhs of crores of rupees. Through initiatives like the Palm Oil Mission, we are empowering our farmers, enabling them to contribute significantly to the country's self-sufficiency. In recent years, we have implemented special policies for pulses, oilseeds, and cereals, providing crucial support to small farmers. These initiatives will continue to benefit our farmers in the future.

To safeguard the future of farmers, we have initiated the 'Amrit Sarovar Abhiyan' in every corner of the country. During the 'Amrit Mahotsav' of Independence, instead of merely creating symbolic monuments, we took practical steps. Rather than constructing grand memorials in Delhi, we transformed the spirit

**The love and blessings I received from the people in various regions of South India were beyond expression.**

**Political analysts might not gauge these sentiments, but as I walked through the streets, the warmth of the people's words and expressions showered blessings upon me**

of independence into a mass movement. Our approach involved building ponds in every village, providing security to farmers, ensuring access to clean water, and fertilising the land. Under this campaign, over 60 thousand new lakes have been created across the country—a feat that few governments could achieve. These lakes will play a crucial role in ensuring water security for our farmers.

Currently, the nation is making significant strides in the realm of renewable energy, propelled by campaigns like green hydrogen and the solar rooftop mission. India is on the verge of becoming the global hub for semiconductors, thereby playing a pivotal role in driving the next computing revolution worldwide. Across various sectors, from port-led growth to public transport, we anticipate reaching new heights in the foreseeable future.

Currently, the BJP stands as the sole political party in the nation that is unwavering and deeply committed to fostering the spirit of

'Ek Bharat - Shreshtha Bharat' (One India, Best India). My recent experiences have left an indelible mark on my heart. During the past month, I had the privilege to visit several locations associated with Lord Shri Ram during an 11-day spiritual journey. These places included Nashik, Lepakshi, Triprayar, Srirangam, Rameshwaram, and Dhanushkodi, where I went as a humble seeker. The love and blessings I received from the people in various regions of South India were beyond expression. Political analysts might not gauge

**I am confident that many of you have felt a similar sentiment to varying degrees. Our continuous efforts aim to bring our countrymen closer through various means, whether it's delivering a speech in Tamil at the United Nations or spreading the message of Jagadguru Basaveshwara**

these sentiments, but as I walked through the streets, the warmth of the people's words and expressions showered blessings upon me. During this time, I had the unique opportunity to listen to the recitation of Kamb Ramayana, exactly where the great poet Kamban composed it 800 years ago. Experiencing this emotional connection was truly extraordinary and encapsulated the essence

of 'Ek Bharat - Shreshtha Bharat.' I am confident that many of you have felt a similar sentiment to varying degrees. Our continuous efforts aim to bring our countrymen closer through various means, whether it's delivering a speech in Tamil at the United Nations or spreading the message of Jagadguru Basaveshwara far and wide. From organising Kashi Tamil Sangamam and Kashi Telugu Sangamam to establishing a chair in the name of Subramaniam Bharati at BHU, or celebrating the foundation day of every state in the respective Raj Bhawans, we celebrate our diversity and unity. The spirit of 'Ek Bharat - Shreshtha Bharat' is deeply cherished by us, and we remain committed to strengthening it further.

### **Spirit of 'Ek Bharat Shreshtha Bharat'**

The spirit of 'Ek Bharat Shreshtha Bharat' is vividly reflected in our

governance, with our unwavering focus on the development of every region. The transformation of the North East serves as a compelling example. In the past, the North-East was consistently overlooked by previous administrations, given its fewer seats in Parliament. However, our approach is not driven by electoral considerations; rather, we are committed to ensuring prosperity and development in every corner of the country. Today, whether it's the challenging terrain of Siachen or the aspirational districts across the nation, no region is distant from our attention. The villages that were once labelled as the 'last villages' have now become our top priority. Members of my cabinet even spent nights in these villages, enduring extreme conditions, to truly understand the needs of the people. Every part of the country is invaluable to us, and our commitment is directed towards every corner.

**People who are genuinely interested in politics and value democratic principles, whether neutral or not, publicly praise us, and if not publicly, they do so privately**

People who are genuinely interested in politics and value democratic principles, whether neutral or not, publicly praise us, and if not publicly, they do so privately. There's a significant reason behind this praise—we have consciously evolved and adapted positively over time. We have kept our political system open to new and modern ideas. In the years following independence, those who governed our country established a system where only individuals from a handful of influential families remained at the core of power. Political influence was confined to those in proximity to these families, and key positions were typically reserved for those with close family ties. We revolutionised this system by providing opportunities to new faces to enter our political structure and deliver results. This injection of fresh perspectives rejuvenated the system while preserving its democratic essence. Our cabinet boasts a record number of ministers from the North East, and Nagaland now has its first woman MP in the Rajya Sabha. We take pride in including a Minister from Tripura in our Council of Ministers for the first time. Arunachal Pradesh has a cabinet minister for the first time in our government, and we

nominated the first Gurjar Muslim to the Rajya Sabha. Goa also has a cabinet minister from our government. We are proud to uphold a BJP culture that ensures unprecedented OBC representation in the ministry.

## **Our government is dedicated to serving everyone**

Our government is dedicated to serving everyone, and our work reflects the ethos of 'Sabka Saath, Sabka Vikas.' We take immense pride in fulfilling the spiritual aspirations of millions of

**Our government is dedicated to serving everyone, and our work reflects the ethos of 'Sabka Saath, Sabka Vikas.'**

**We take immense pride in fulfilling the spiritual aspirations of millions of Sikh devotees through the Kartarpur Sahib Corridor**

Sikh devotees through the Kartarpur Sahib Corridor. Previously, Sikh devotees living on the border had to use binoculars to catch a glimpse of Kartarpur Sahib for 70 years. We changed that situation. Additionally, we removed GST from langar items, granted FCRA registration for the Golden Temple, allowing foreigners to contribute to

service. In a groundbreaking move, we celebrated 'Veer Bal Diwas,' honouring the bravery of those who sacrificed their lives for truth and justice. Today, even children in Kerala and Nagaland know the incredible sacrifice made by the Sahibzadas. The 'swaroop' of Guru Granth Sahib were respectfully brought back from Afghanistan. Our government has also enhanced the Hajj process, making it more convenient, and now it's possible for women to perform Hajj without a Mehram, facilitating thousands of women to undertake the pilgrimage.

## **India is scripting a new narrative**

When I took the oath in 2014, critics questioned my experience outside a state, expressing doubts about how someone like Modi would handle such a vast country and the world. However, the reality speaks for itself, especially in the realm of foreign policy. Recently, I

returned from visits to UAE and Qatar, showcasing the strengthened ties with several countries. Our relations with West Asian nations are currently at their peak. In 2015, when I visited the UAE, it was the first time any Prime Minister had done so in 34 years. This reflects the neglect of the region by previous administrations. The Congress governments primarily viewed West Asia through the lens of Pakistan, lacking confidence in the strength and capabilities of Indians. Today, India is scripting a new narrative in its relations with the region, moving beyond the traditional aspects of oil import and labour export. Our ties are expanding in trade, technology, tourism, and various other domains, fostering continuous growth. Notably, five Arab countries have bestowed upon me their highest honours, a recognition not for Modi but for the collective strength of 140 crore Indians.

Experts in foreign policy can discern the signals emanating from international interactions. Today, both ruling and opposition parties in different countries openly acknowledge that India's strengthening is beneficial for the entire world. This growing belief is becoming pervasive worldwide. India's reputation and influence are on the rise in

**Experts in foreign policy can discern the signals emanating from international interactions. Today, both ruling and opposition parties in different countries openly acknowledge that India's strengthening is beneficial for the entire world**

every continent, with every nation emphasising the need for stronger ties with India. Amidst this scenario, our government is already in talks with countries; to your surprise, I have invitations lined up for July, August, and September, even before the elections. What does this signify? It indicates the world's confidence in the return of the BJP government. Every country, every power across the globe knows and believes – Aayega To Modi Hi.

## **Safeguard country from Congress**

It is the duty of every BJP Karyakarta to safeguard the country

from Congress and protect every citizen. The track record of Congress is evident – it is the harbinger of instability, dynasticism, corruption, and appeasement. In the 70s, as public discontent against Congress grew, the party resorted to destabilising every leader's government to secure itself. Even today, Congress is actively plotting to create instability, which is the hallmark of the coalition they have formed. Congress lacks a development agenda or a vision for the future; instead, they are focused on dividing the country based on language or region.

Congress has committed one of the gravest sins by undermining the morale of the country's armed forces. The party has consistently worked against India's national security and strategic strength. Whenever significant advancements were

**Congress has committed one of the gravest sins by undermining the morale of the country's armed forces. The party has consistently worked against India's national security and strategic strength**

made in the defence sector or our forces achieved success, Congress raised unwarranted questions. Five years ago, they vehemently opposed the acquisition of advanced aircraft like Rafale for our Air Force, spreading false claims about Hindustan Aeronautical Limited (HAL). Despite their efforts to

discredit HAL, it is thriving today, securing numerous orders and witnessing substantial market value growth. These are the same individuals who questioned the valour of our forces during surgical strikes and sought proof of the success of airstrikes, consistently undermining the Indian Army.

Congress is in a state of confusion, exemplified by the internal conflict within the party. This conflict is not based on principles or plans but revolves around the intensity of hatred towards Modi. One faction advocates vehemently hating Modi, making personal allegations to tarnish his image, while another believes that such personal attacks are detrimental to Congress. This internal strife reveals that Congress is not engaging in principled or ideological opposition. Instead, resorting to abuses and false allegations

against Modi has become their sole agenda.

I declared from the Red Fort that the current moment is opportune, marking a crucial juncture in India's history where we must alter the course of our nation's destiny. My message to the citizens was clear: if you work for 10 hours, I'll work for 11; for 12 hours, I'll work for 13; and for 14 hours, I'll work for 15. Addressing my colleagues, fellow workers, and those aspiring for a brighter future, I urge every BJP Karyakarta to set and achieve new goals in the next 100 days. Over the years, millions have benefited from BJP government schemes, and the mission now is to reach every beneficiary. I have a personal request: visit every beneficiary, convey Prime Minister Narendra Modi's greetings, and use the NaMo app for seamless communication. Ensure that every first-time voter becomes a brand ambassador for 'Viksit Bharat' through the NaMo App. On election day, mobilise voters to cast their ballots for the lotus symbol or NDA allies. It is crucial to unite people not only for forming the government but also for building the nation. 'Sabka Saath-Sabka Vikas' is our guiding mantra. The time has come to realise the dreams envisioned by our freedom fighters, and for this, the BJP and its government are indispensable.

### **Today the people of the country are saying...**

- Strict action should be taken against corruption...that is why BJP is necessary.
- To keep inflation under control...that is why BJP is necessary.
- There should be fear among the enemies of the country...that's why BJP is necessary.
- Investment and job opportunities should keep increasing... that's why BJP is necessary.
- India should become the third largest economic power...that's why BJP is necessary.
- Modern infrastructure should be built rapidly in India...that is why BJP is necessary.
- BJP is necessary for the 'Self-reliant India campaign' to be successful.
- Crores of Indians should continue to get free ration...that's why BJP is necessary.

- Farmers should continue to get Samman Nidhi...that's why BJP is necessary.
- Every benefit should reach 100% beneficiaries quickly – that is why BJP is necessary.

## **Friends,**

Take this new determination to your respective areas. Abki Baar... 400 Paar... we must immerse ourselves in this mission. Best wishes to all of you.

**Bharat Mata Ki Jai! Bharat Mata Ki Jai! Bharat Mata Ki Jai!**

## **UNDER THE LEADERSHIP OF PM MODI, NATION IS ADVANCING ON THE PATH OF DEVELOPMENT: JP NADDA**

BJP National President Shri Jagat Prakash Nadda addressing the inaugural session of BJP National Convention on 17 February 2024, lauded PM Shri Narendra Modi's steadfast dedication to the growth and development of the party organisation and the nation.

He said, "The BJP, under the leadership of Modi ji, will achieve a hat-trick in the third term". We are publishing the full text of the speech for our esteemed readers:

Present among us in today's grand convention are our respected Shri Narendra Modi ji, all the members of the Parliamentary Board of the Bharatiya Janata Party seated on the stage, all the Chief Ministers and Deputy Chief Ministers also present on the stage, our national office-bearers, and numerous members attending the National Convention 2024. We also have friends from the media and electronic media gathered in large numbers from every corner of the country. It is a momentous occasion for all of us to be witnesses of this grand convention. We are fortunate to come together in an environment where we have witnessed victory in the past and are poised to achieve it again in the future.

Today, we have in our midst our esteemed leader, the Prime Minister who has redefined the political landscape by providing leadership to the country, the party, and society at large. First and foremost, I extend a warm welcome and heartfelt congratulations to our distinguished Prime Minister.

I often emphasize that all of you, who have been and are actively involved in various political responsibilities, understand the inherent challenges and complexities of these roles. However, our Prime Minister, despite being deeply engrossed in the administration of the country, consistently prioritizes the party. He unwaveringly supports and stands by the party, demonstrating a commendable commitment. It is indeed a great privilege for all of us to have a leader whose primary concern is the advancement and growth of the party. Prime Minister Shri Modi, at every moment, shows concern for the multitude of party workers and provides guidance. I extend my sincere congratulations and warm welcome to him once again.

**Under the leadership of Prime Minister Modi ji, the party has experienced significant growth, both in terms of its organizational reach and public acceptance**

My heartfelt congratulations and warm welcome also go out to all of you attending this grand convention. I congratulate you because, at times, my actions may be a source

of frustration, my phone calls might be bothersome, and my video conferences may be for new tasks, but each one of you is diligently working to strengthen the organization at the grassroots level. Once again, my sincere congratulations to all, and I extend a warm welcome to everyone.

## **We endured the challenges**

In the seven-decade history of the Bharatiya Jana Sangh and the Bharatiya Janata Party, we have experienced every era - from times of struggle to moments of being overlooked. We witnessed periods when contesting elections felt like an effort merely to save the security deposit. We endured the challenges of emergencies and various electoral outcomes, both victories and losses. However, we are collectively delighted that the past decade has been marked by the remarkable achievements of Prime Minister Modi ji. This brings immense joy to all of us, and I am eager to share this happiness with you.

Under the leadership of Prime Minister Modi ji, the party has experienced significant growth, both in terms of its organizational reach and public acceptance. In the 2009 elections, the Bharatiya Janata Party secured 18.8 percent support nationwide. However, in 2014, under Modi Ji's leadership, the party witnessed a substantial rise to 31.3 percent. In the 2019 elections, we surpassed our previous achievements, securing 303 seats, an increase from 282, and the vote percentage rose from 31 percent to 37 percent. It is crucial to acknowledge this remarkable progression.

## **We embarked on a journey of victories**

Our winning momentum commenced, and we embarked on a journey of victories. It is noteworthy that after three decades, in 2014, a government with an absolute majority was established under the leadership of Modi ji. Subsequently, after another five years, Prime Minister Modi ji led the formation of another majority government. This achievement is a source of immense pride for us, considering it was a dream for multiple generations. Today, our convention transcends its typical nature, becoming more than just a National convention—it transforms into a mass gathering, resembling a public meeting. Presently, we proudly stand as the world's largest political party.

**Following the 2019 elections, where we contested in 26 states, the Bharatiya Janata Party secured a majority government in 16 states**

Before 2014, we governed in only five states, encountering a prolonged period of stagnation at 5-6 states. However, since 2014, there has been a significant transformation. Currently, the NDA has governments in 17 states, and the Bharatiya Janata Party independently governs in 12 states. Our representation has surged from about 17.4 percent before 2014 to leading 58 percent of the population. This remarkable growth is attributed to the efficient governance of the Bharatiya Janata Party and the esteemed Prime Minister.

Highlighting our victories in 2019, I present the impressive statistics. Following the 2019 elections, where we contested in 26 states, the Bharatiya Janata Party secured a majority government in 16 states. Over the last five years, we have triumphed in nearly 100 assembly by-elections and secured victory in 6 out of 8 Lok Sabha by-elections. Additionally, we have won a staggering 9,836 seats in local body elections. Notably, in 186 places, we secured victory independently in Municipal Corporations, establishing mayors. This record showcases our consistent success and growing influence.

## **Our achievements in assembly elections**

It is crucial to acknowledge our achievements in assembly elections. A notable victory was securing a full majority in Uttar Pradesh, marking the return of a Bharatiya Janata Party government after 34 years. While celebrating this triumph in Uttar Pradesh, it

**Reflecting on our political journey in Assam reveals a remarkable transformation.**

**It was beyond our imagination that we would ever form a government in Assam, especially considering our situation in the 2012 and 2011 elections**

is essential to highlight our substantial progress in West Bengal. In West Bengal, where our vote percentage was initially 10 percent, we have now won 77 seats, and our vote share has risen significantly to 38.5 percent. As we reflect on these successes, it is evident that the next turn is approaching, and we

must be prepared to claim it.

Turning our attention to Gujarat, where we have consistently formed the government since 1997, this prolonged governance is a significant achievement. Remarkably, there is a pro-incumbency sentiment, indicating the continued trust and support of the people. Additionally, in Haryana, after a notable campaign, we successfully formed the government for the first time since 2014, challenging earlier skepticism and proving our capability to lead.

Reflecting on our political journey in Assam reveals a remarkable

transformation. It was beyond our imagination that we would ever form a government in Assam, especially considering our situation in the 2012 and 2011 elections. However, post-2014, we contested elections in Assam, and the Bharatiya Janata Party successfully established a government, reiterating this achievement in subsequent elections.

In Bihar, we secured the highest number of seats in the NDA alliance, leading to the formation of our government. Shifting our focus to Uttarakhand, where the politics were characterized by alternating parties, we emerged victorious and formed the government once again. It is noteworthy that we achieved this victory in a shorter span, emphasizing our efficient governance and leadership.

The formation of our government in Manipur was a significant achievement. Not only did we establish the government there, but we secured a majority once again in subsequent elections. This success has understandably caused discomfort for the Congress, considering their long-standing rule in the region. Today, the lotus is blooming in Manipur, signaling a significant political shift.

**The achievements we have witnessed are a testament to the trust people have placed in Prime Minister Modi**

Reflecting on Meghalaya and Tripura, the political landscape witnessed a remarkable transformation. In Tripura, where the idea of a BJP government seemed implausible, not only did we come to power, but we also successfully retained it despite concerted opposition from both Congress and Communist parties.

The journey continued with the formation of an NDA government in Meghalaya, reaffirming our commitment to effective governance. Additionally, in Nagaland, we secured victory once again, adding to our series of successful governments. It is indeed a source of pride that in the states of Rajasthan, Madhya Pradesh, and Chhattisgarh, the Bharatiya Janata Party triumphed in the elections, establishing governments and further strengthening our political presence.

The achievements we have witnessed are a testament to the trust

people have placed in Prime Minister Modi. The success is not only a reflection of their confidence in the Prime Minister's assurances but also an endorsement of the effective implementation of various programs and initiatives. It is noteworthy that the esteemed Prime Minister, Shri Narendra Modi, played a pivotal role in translating these commitments into reality. This resulted in strengthened villages, empowerment for the poor, enhanced dignity for Dalits, increased empowerment for women, mainstream inclusion for farmers, and a newfound confidence among marginalized and exploited communities.

The prevailing circumstances led to our success in these three elections. When we talk about Chhattisgarh, many among you insist that we should let go of Chhattisgarh. You questioned, "What

**For those interested in understanding our political vision, I encourage a closer study of the strategy devised by the Prime Minister, implemented under the guidance of Shri Amit Shah, and executed by our dedicated party members**

will happen to Rajasthan? What about Madhya Pradesh?" Wasn't that the sentiment? Nevertheless, I want you to ponder over the outcomes in Madhya Pradesh and Rajasthan. Speaking specifically about Chhattisgarh, we had previously formed three governments. However, this time, our victory surpassed the

combined success of those three governments. The Bharatiya Janata Party secured 54 out of 90 seats for the first time, witnessing an increase in our vote percentage from 33 percent to 46 percent—an impressive 13 percent surge. This exemplifies the success story of Chhattisgarh.

For those interested in understanding our political vision, I encourage a closer study of the strategy devised by the Prime Minister, implemented under the guidance of Shri Amit Shah, and executed by our dedicated party members. Chhattisgarh serves as a prime example; once perceived as a state of defeat, it achieved an unprecedented victory. In Madhya Pradesh, a clear message resonated among the people: "MP has Modi in mind, and Modi has

MP in mind.” This sentiment struck a chord with the public, leading to our remarkable victory with a two-thirds majority. Securing 163 out of 230 seats, we experienced a substantial increase in our vote share from 41 percent to 48 percent.

In Rajasthan, despite being labeled as “Fifty-Fifty,” we formed the government and increased our vote share by 3 percent. Telangana is another example where, despite an initial setback, we achieved victory. In Telangana, we started with 1 MLA and a 7.1 percent vote share, and now we have doubled our vote share to 14 percent, securing 8 MLAs.

Our strong performance indicates that our government will be formed there in the next elections, and we are actively preparing for it.

This significant victory was made possible by the public’s trust in Prime Minister Modi’s leadership and the dedicated hard work of all party workers

on the ground, translating into votes. Congratulations and heartfelt thanks to everyone who contributed to this success. The party has successfully navigated a long ideological journey, remaining steadfast in its principles from 1951 to 2023 and 2024. The Bharatiya Janata Party stands out as the only party with a stable ideological foundation.

**The party has successfully navigated a long ideological journey, remaining steadfast in its principles from 1951 to 2023 and 2024. The Bharatiya Janata Party stands out as the only party with a stable ideological foundation**

## Implementing Antyodaya principles

We, who have embraced Antyodaya and given tangible form to Integral Humanism, took this journey forward by simplifying and implementing Antyodaya principles. Our Prime Minister has advanced the vision of ‘Sabka Saath, Sabka Vikas, Sabka Vishwas, Sabka Prayas’—working to unite everyone for development and fostering trust through collective effort. At a time when divisive politics based on caste and vote bank tactics is prevalent, Prime

Minister Modi has challenged and changed this culture. Today, he emphasizes on GYAN, the well-being of the poor (Garib), empowerment of youth (Yuva), support for farmers (Annadata), and harnessing the power of women (Nari Shakti). This reflects a comprehensive concern for the nation's society.

Hence, when we assert this, it is not merely a slogan but a reality – the Pradhan Mantri Garib Kalyan Anna Yojana. This initiative ensures food supply to 80 crore people, enabling 25 crore individuals to elevate themselves above the poverty line and soar towards a brighter future. This achievement is there for all of us to witness.

**Ayushman Bharat stands as the world's largest health program, a notable achievement that should not be overlooked**

In the context of the Pradhan Mantri Awas Yojana, 4 crore 10 lakh houses have been constructed – permanent homes that were once unimaginable for many. The Prime Minister set a goal to ensure that no

underprivileged person should reside in a makeshift dwelling, providing them with a permanent roof. I had the opportunity to be a part of the Ayushman Bharat Scheme, a monumental initiative that, within 9 months, provides Rs 5 lakh annually to 55 crore people to combat serious illnesses. If anyone has accomplished this feat, it is our respected Prime Minister Modi ji. Ayushman Bharat stands as the world's largest health program, a notable achievement that should not be overlooked.

Swachh Bharat has been instrumental in constructing over 11 crore dignified homes. Many individuals, especially from Uttar Pradesh and Bihar, have firsthand experiences of the challenging conditions our sisters and mothers endured while fetching water on the streets for their daily needs. By providing respectable homes to 12 crore people, the Prime Minister has not only empowered women but also bestowed upon them the right to live with dignity. This is a well-known achievement that we should acknowledge.

Ujjwala Yojana and Ujala Yojana have made a significant impact. Allow me to share a personal note, Hon'ble Prime Minister. I hail

from a mountainous village, and I often recount this. Our sisters would rise at 5 in the morning to go to the forests, cut wood, and bear the burden of bringing it home. They would then light stoves by blowing with their fans, inhaling the smoke on their lungs. We have witnessed those times. However, the Ujjwala Yojana, providing gas connections to more than 11 crore mothers and sisters, has empowered them, offering a form of women empowerment with great force. Bringing electricity to 18,000 villages is a remarkable achievement. Consider the transformation in those villages, where people had never experienced electricity. It's hard to fathom what the country, the villages, and the states were like before. Today, those 18,000 villages have electricity. Additionally, 2 crore 62 lakh people received electricity in their homes through the Saubhagya Yojana, breathing new life into their homes with this visionary initiative. This is another accomplishment we should not forget.

### **Piped water has reached 11 crore households**

Under the Jal Jeevan Mission, piped water has reached 11 crore households for the first time. I recall my early days as an MLA in 1993

when sisters would approach me, sharing the hardship of traveling 3 kilometers downhill to fetch a glass of water and then climbing back up. It consumed three hours of their daily lives. They pondered what kind of life awaited them. Today, in a changing India, under the leadership of Modi ji, a plan was initiated to provide 'water to every house, tap to every house' for 11 crore households. Our past decade has been marked by these noteworthy achievements, and we've diligently worked to propel these schemes forward.

It would be remiss of me not to mention the Nari Shakti Vandan Bill here, as it reflects an injustice to the strength of women. This bill, which had been halted for 30 years due to political reasons, was

**Nari Shakti Vandan Bill which had been halted for 30 years due to political reasons, was swiftly passed by both Lok Sabha and Rajya Sabha within three days under the guidance of Prime Minister Modi ji**

swiftly passed by both Lok Sabha and Rajya Sabha within three days under the guidance of Prime Minister Modi ji. Additionally, with the strategic leadership of our Home Minister Amitbhai Shah ji, Article 370 was permanently abolished. We have witnessed these historic moments.

I also recall the time when I was a Yuva Morcha worker. In 1989, during the National Executive held in Palampur, it was decided in our state, Himachal Pradesh, that efforts would be made to pave the way for the construction of the Ram temple. We enthusiastically chanted slogans in 1989 and for several years thereafter, expressing our commitment to build the temple for Ram Lala. Some skeptics questioned when we would announce the date, but we assured them that we would provide a date, and they should indeed come. While some didn't join us, on the 22nd, after performing rigorous rituals for 11 days, the respected Prime Minister laid the foundation stone for the Ram temple, and we all witnessed this historic

**The respected Prime Minister just now has conferred 'Bharat Ratna' to distinguished sons of India for their significant contributions to the country and society**

moment. Today, we see a magnificent Ram temple with Ram Lala seated there. The event on the 22nd wasn't just significant for any village, country, or state; it resonated across the world. Bells rang in temples globally, and Ram Lala was welcomed. We

have fulfilled this long-standing ideological commitment, and it brings us great joy.

The respected Prime Minister just now has conferred 'Bharat Ratna' to distinguished sons of India for their significant contributions to the country and society. Recognizing their exemplary work, life, and his establishment in society, this National Council extends heartfelt congratulations on conferring the 'Bharat Ratna' upon them. We express our sincere gratitude to Prime Minister Modi ji and salute him for this achievements.

Our Bharat Ratna, the distinguished Shri Lal Krishna Advani ji, is fondly remembered for his immense contributions that transformed the party into a formidable force. His long and illustrious political

career, marked by unwavering dedication, serves as an inspiration for all. We also acknowledge his valuable service to the nation as the Home Minister and Deputy Prime Minister of India. A heartfelt thank you to the Prime Minister for bestowing Bharat Ratna upon such a senior leader.

Chaudhary Charan Singh ji, a stalwart who dedicated his life to championing the rights of farmers, lived a life of exemplary simplicity, consistently advocating for the welfare of our farmer brethren. The former Prime Minister, Chaudhary Charan Singh, received this well-deserved honor. Likewise, Karpoori Thakur ji, an advocate for social justice for the backward classes and extremely backward classes, devoted his life to uplifting the underprivileged. On his centenary birthday, the Prime Minister bestowed upon him the prestigious 'Bharat Ratna'. Congratulations to both leaders for their significant contributions, simplicity, and commitment to public service.

Our esteemed PV Narasimha Rao ji, a former Prime Minister of India, served the nation in various capacities, exhibiting visionary leadership that brought forth a new economic perspective. Recognizing his significant contributions, particularly in the realm of public languages and education, he was honored with the Bharat Ratna. His dedication to advancing linguistic knowledge and educational opportunities has left a lasting impact on our country.

**Dr. M.S. Swaminathan, often hailed as the 'Father of the Green Revolution,' played a pivotal role in ensuring food security for India**

Our esteemed Dr. M.S. Swaminathan, often hailed as the 'Father of the Green Revolution,' played a pivotal role in ensuring food security for India. His pioneering efforts and contributions towards making India self-sufficient in food production have had a profound impact. Recognizing his monumental role, Dr. Swaminathan was rightfully honored with the Bharat Ratna. I extend my heartfelt thanks and congratulations to the Prime Minister for making such commendable decisions and bestowing Bharat Ratna upon these distinguished individuals.

## **Bharat Mandapam has become a vibrant venue**

Reflecting on the government's achievements is a monumental task, given the multifaceted nature of its development journey. In our current setting, the Bharat Mandapam stands tall, a testament to progress and transformation. Many among us may recall its earlier incarnation as Pragati Maidan, a structure frozen in time since 1971-72. I vividly remember witnessing the 71st Asia Fair at the age of 11, and the subsequent decline of Pragati Maidan. Today, we marvel at the metamorphosis into the proud symbol of our nation, the 'Bharat Mandapam.' It serves as a tangible reminder of the progress we've witnessed, even as some tried tirelessly to impede Modi ji's path to development.

During the Covid-19 pandemic, legal actions were initiated to halt the construction of Bharat Mandapam. Despite facing numerous obstacles, Prime Minister Shri Modi remained resolute and unwavering. The project persevered, and today, Bharat Mandapam stands before us, completed in a remarkably short time. Its historical significance was further underscored when it hosted the G-20

**Bharat Mandapam has become a vibrant venue with daily programs attracting crowds of 15,000 to 20,000 attendees. It has etched its place in history, complemented by Yashobhoomi, another remarkable location where grander events have unfolded**

summit, symbolizing the auspicious beginning of this national monument. The summit, attended by representatives from G-20 nations, created a festive atmosphere. Decisions made during the G-20, such as the inclusion of African Union as permanent members, were unanimously adopted, marking a revolutionary moment acknowledged by the global community.

Bharat Mandapam has become a vibrant venue with daily programs attracting crowds of 15,000 to 20,000 attendees. It has etched its place in history, complemented by Yashobhoomi, another remarkable location where grander events have unfolded.

The construction of a convention center at Yashobhoomi further accentuates its significance. Together, Bharat Mandapam and Yashobhoomi contribute to the nation's progress, showcasing their importance in our collective memory.

## **Our achievements are evident in various sectors**

When considering the economic state of the country, it's crucial to acknowledge the remarkable progress made. From being in a fragile position, we have now risen to be among the top 5 economies globally. Looking ahead to 2024, there's a strong possibility of Prime Minister Modi securing a hat-trick, leading the nation to become the third-largest economic power. Despite critiques, especially from some prominent economists, asserting that growth is not happening, it's evident that the country is advancing rapidly.

**Our achievements are evident in various sectors. According to the Morgan Stanley Capital International report, India has reached a historical high with an 18.2 percent growth rate in emerging markets**

Contrary to the skepticism, the growth rates speak for themselves. The USA's growth rate stands at 1.5 percent, Germany at 0.9 percent, China at 4.2 percent, Japan at 1 percent, and India boasts an impressive growth rate of 6.3 percent. This significant growth, as recognized by the International Monetary Fund (IMF), positions India as a bright spot in the global economic landscape.

It's crucial to recognize that while one can provide eyes, vision is a personal perspective that cannot be instilled in someone. This sentiment is particularly relevant when addressing our colleagues in the Congress party who may lack a broader vision. Our achievements are evident in various sectors. According to the Morgan Stanley Capital International report, India has reached a historical high with an 18.2 percent growth rate in emerging markets. Additionally, we have successfully constructed 1,46,000 kilometers of National Highways, representing a 60 percent increase compared to the

previous government. The expansion of four-lane highways has seen a two-and-a-half-fold increase.

Furthermore, the development of metro systems has expanded from five cities to 20 cities. Our aviation infrastructure has witnessed remarkable growth, with the number of airports increasing from 74 to 149. As we continue to progress, we are on track to have 150 airports operational by the next visit of Prime Minister Modi. These achievements underscore our commitment to infrastructure development and the overall growth of the nation.

A pivotal aspect of India's development is the extensive focus

**Furthermore, our commitment to education is evident in the creation of seven new Indian Institutes of Technology (IITs), seven Indian Institutes of Management (IIMs), and 16 new Indian Institutes of Information Technology (IIITs)**

on rural infrastructure, particularly rural roads. Notably, 3,75,000 kilometers of roads have been constructed, fostering connectivity in rural areas. The initiative to connect 2 lakh panchayats with optical fiber is another commendable step, enhancing digital connectivity in these regions. The ambitious

plan to build 1,300 new railway stations promises a transformative change, with expectations that, in a year's time, the distinction between airports and railway stations will disappear.

India's achievements extend to the technological domain, as we now stand as the second-largest exporter of mobile phones, with 97 percent of them being manufactured domestically. This is reflected in the 'Made in India' label even on Apple products. Moreover, the automotive sector sees India ranked as the third-largest market globally. In defence exports, we have reached an all-time high, with exports reaching Rs 16,000 crores. The healthcare sector has witnessed significant growth, marked by the establishment of 15 new All India Medical Sciences and the development of 319 medical colleges.

Furthermore, our commitment to education is evident in the creation of seven new Indian Institutes of Technology (IITs), seven

Indian Institutes of Management (IIMs), and 16 new Indian Institutes of Information Technology (IIITs). A noteworthy accomplishment is the 44 percent increase in the enrollment of Scheduled Caste students in higher education, reflecting our dedication to inclusive growth. These milestones underscore the comprehensive development agenda driving India's progress.

It is crucial to note the remarkable increase in the enrollment of our Scheduled Tribe brethren in higher education, witnessing a substantial rise of 65 percent. Additionally, 44 percent of Other Backward Classes (OBCs) are currently enrolled in higher education, underscoring the significance of this achievement. The implementation of e-jam has been instrumental in eradicating corruption, facilitating the seamless transfer of Rs 3 lakh crore to the accounts of the underprivileged within a span of eight days.

## **Decisive action taken to eliminate fraudulent beneficiaries**

Furthermore, decisive action has been taken to eliminate fraudulent beneficiaries, resulting in the removal of 10 crore fake accounts. Efforts to curb leakages in financial systems, amounting to Rs 2.45 lakh crore, have been successfully pursued. A

**Furthermore, decisive action has been taken to eliminate fraudulent beneficiaries, resulting in the removal of 10 crore fake accounts**

concerted drive to enhance women's participation in economic activities led to the addition of 10 crore women to Self Help Groups. Currently, three crore individuals have achieved the status of lakhpatis, contributing to the realization of the 'Lakhpati Didi' initiative. The Mudra Yojana has played a pivotal role in connecting women with self-employment schemes, aligning with the broader agenda of empowering women in the workforce.

On the global stage, our vision for India involves self-reliance and fostering international friendship. We have emerged as a powerful voice representing the Global South. Through initiatives

like Covid Vaccine Maitri, we demonstrate our commitment to global solidarity by supplying 30 crore vaccine doses to nearly 100 countries, standing by them in times of distress. This commitment to international cooperation remains unwavering.

## **We championed cause of ISA**

Under the leadership of Prime Minister Modi, we championed the cause of the International Solar Alliance, exemplifying our dedication to sustainable and clean energy. During our tenure presiding over the G-20, we achieved unanimous resolutions and established corridors connecting India, the Middle East, and Europe, further enhancing global connectivity. Prime Minister Shri Modi successfully facilitated South Africa's permanent membership in the African Union, solidifying India's commitment to fostering strong ties with African nations.

Numerous topics and issues warrant our attention and discussion.

**Under the leadership of Prime Minister Modi, we championed the cause of the International Solar Alliance, exemplifying our dedication to sustainable and clean energy**

While acknowledging that achievements are extensive and challenging to encapsulate, it's noteworthy that Prime Minister Modi's mention of Yoga at the United Nations General Assembly led to unanimous adoption by 175 countries.

Consequently, June 21st is now recognized as International Yoga Day worldwide. The Year of Millets 2023, spearheaded by Prime Minister Modi, achieved international acclaim through his address to the United Nations General Assembly.

Regarding rescue operations, initiatives like Vande Bharat Mission, which aimed at repatriating citizens during Covid, Operation Ganga for evacuating people from Ukraine, and efforts in Syria, highlight India's commitment to the welfare of its citizens abroad. Prime Minister Modi's groundbreaking initiatives, ranging from Mars to Chandrayaan, have played a pivotal role in achieving

remarkable milestones. Notably, the successful soft landing of Chandrayaan in the South Pole was a historic moment witnessed by all.

We've also witnessed the successful endeavor of Aditya L-1, marking our distinctive presence on Earth, in the world, and even in space. This remarkable feat should be etched in our collective consciousness. Additionally, I'd like to emphasize that over the past decade, the party has surged ahead with accelerated momentum, diligently pursuing its objectives. Under the stewardship of Shri Amit Bhai Shah, the party has not only expanded but has also evolved comprehensively. We are resolute in perpetuating this growth. Today, it brings me joy to note that within a party of 18 crore workers, inclusive of the organizational structure nationwide, and serving as the president of our booth committee overseeing 8 lakh 74 thousand booths, we've attained this prominent position. This underscores our identity as a cadre-based party, the largest political party, with an extensive network of workers associated with us at the grassroots level.

## **BJP adorns every corner**

Our standing is undeniable. We are the largest party in the Lok Sabha and the Rajya Sabha. With approximately 1500 elected MLAs and

around 170 MLCs, our reach is extensive. We boast 93 mayors, including our Deputy Mayor, bringing the total to over 163. Across the nation, we have 539 municipal chairman and 297 District Council Presidents, with about 1000 Nagar Panchayat presidents. The lotus emblem of the Bharatiya Janata Party adorns every corner, from north to south, from east to west.

The formation of the Pan-India Party marked the establishment of the Bharatiya Janata Party. Despite claims that we are absent in the South, let me set the record straight. In the South, the Congress has 28 MPs, whereas the Bharatiya Janata Party boasts 29 MPs.

**We've also witnessed the successful endeavor of Aditya L-1, marking our distinctive presence on Earth, in the world, and even in space**

Furthermore, in the Rajya Sabha, we hold 8 seats compared to Congress's 7 seats. This, too, should not be overlooked.

I express my gratitude to all of you. When the Covid pandemic struck, and the nation went into lockdown, Prime Minister Modi led us with unwavering determination. It was an unprecedented time, unfamiliar to us all. Still, Prime Minister Modi courageously took the lead, emphasizing that "if there is life, then there is the world." He implemented a lockdown, steering the country through these challenging times, preparing us for the uncertain future.

In the face of adversity, when the country was prepared, Prime Minister Shri Modi declared, "There is life and there is the world," and led us forward. Despite being ridiculed, he called upon the nation to clap and play thali, a call that resonated throughout the country. The citizens came together, clapping, playing thali, and lighting lamps in a show of unity with Modi ji.

**In the face of adversity, when the country was prepared, Prime Minister Modi declared, "There is life and there is the world," and led us forward. Despite being ridiculed, he called upon the nation to clap and play thali, a call that resonated throughout the country**

During this critical time, the party, under your guidance, embraced the ethos of "Seva Hi Sangathan Hai." The purpose of an organization is to serve during times of crisis, and I commend the workers for their dedication. Thank you, workers, a thousand times over. Despite the challenges posed by Covid, you tirelessly

worked day and night, distributing millions of masks, lakhs of sanitizers, and providing food ration kits to thousands. Your efforts extended to delivering food and medicines, particularly to the elderly, showcasing unwavering commitment. Some of you contracted the virus not once but twice, yet you remained steadfast in your service. This dedication exemplifies the true spirit of "Seva Hi Sangathan Hai," and I express my sincere gratitude for it.

Under the sagacious guidance of Prime Minister Modi, the party navigated through the challenging times, and your strategic direction

# Glimpses of the BJP National Convention held in New Delhi on 17-18 February, 2024

Glimpses of the BJP National Convention  
held in New Delhi on 17-18 February, 2024

proved invaluable. The successful execution of the 'Gaon Chalo' campaign and the effective empowerment of booths underscore your prowess in public relations. The meticulous training programs implemented by the party, covering 5,515 elected representatives, including Zilla Parishad officials, BDC members, and Nagar Panchayat Presidents, showcase an unparalleled commitment to training and skill development. It's important to note that no other political team has achieved this feat, a testament to the Bharatiya Janata Party's exceptional efforts in this domain.

## **'Meri Mati, Mera Desh' found significant resonance**

The 'Meri, Mati Mera Desh' government program found significant resonance among Bharatiya Janata Party workers, who diligently implemented it across approximately 3 lakh villages. The initiative involved collecting soil from these villages and bringing it to Delhi in an urn, where, under Prime Minister Modi's leadership, the soil was ceremoniously deposited in a specially created garden on October 31. This event was accompanied by a powerful address from the Prime Minister, emphasizing the deep connection between the soil and the nation.

**Under the sagacious guidance of Prime Minister Modi, the party navigated through the challenging times, and your strategic direction proved invaluable**

Similarly, the Basti Sampark program, spearheaded primarily by our Scheduled Caste Morcha but actively involving the entire party, achieved remarkable success. This outreach initiative, coupled with the booth empowerment program, as mentioned earlier, was executed with unwavering commitment and dedication.

Presently, we have successfully extended our reach to more than 8 lakh 40 thousand booths, and it is our collective endeavor to surpass the 10 lakh booth milestone in the near future. This ambitious expansion is underpinned by the indomitable strength of dedicated party workers like you. Notably, a New Voter Conference was conducted where Prime Minister Modi addressed around 32

lakh first-time voters in the last 18 years. Additionally, the party registered approximately 52 lakh students nationwide, a feat commendably achieved by the Yuva Morcha. Numerous special programs, including the 'Know BJP' initiative, witnessed active participation, with over 60 ambassadors from abroad visiting the Bharatiya Janata Party office to gain insights into our organization.

We have received delegations of political ambassadors from 8 countries expressing their interest in understanding the workings of the Bharatiya Janata Party. Additionally, high-profile figures, including the Foreign Minister of Nepal and even the Prime Minister, have visited the Bharatiya Janata Party office, illustrating our party's increasing global engagement.

Now, as we celebrate in our past victories, it is crucial to maintain our momentum for future triumphs. Although our current spirits are high, we must navigate strategically to surpass the 370 mark and lead the NDA to a resounding victory by crossing the 400 mark. To achieve this, a concentrated effort is required at every booth to overcome the challenges akin to Article 370 and strengthen our foothold.

I am confident in the dedication and hard work of the Bharatiya Janata Party workers, and I have full faith in you. The Bharatiya Janata Party, under the leadership of Modi ji, will achieve a hat-trick in the third term, breaking records and advancing further. We will continue progressing in this manner.

Without taking much of your time, I will conclude my speech here with the hope that the next time we meet, we will surpass 370, and the NDA will exceed 400 mark in Lok Sabha Election 2024.

**Thank you very much!**  
**Jai Bharat!**

## **'India emerged as a strong and capable nation with the goal of a Viksit Bharat by 2047'**

The Resolution on 'Viksit Bharat - Modi's Guarantee' was moved by Defence Minister Shri Rajnath Singh at the BJP National Convention in New Delhi on 17 February, 2024.

The Resolution highlighted that under the dynamic leadership of Hon'ble Prime Minister Shri Narendra Modi, India has emerged as a strong and capable nation with the goal of a

Viksit Bharat by 2047. The past 10 years have witnessed the realization of the ideal of Ram Rajya and during this period, the country has gone through an uninterrupted journey of security, prosperity and happiness for all. Following is the full text of the speech of Shri Rajnath Singh:

### **Bharat Mata ki Jai! Bharat Mata ki Jai!!**

Our esteemed Prime Minister, Shri Narendra Modi, has not only elevated India's standing in the global arena but has also bolstered its international reputation. I extend my sincere regards to the visionary National President of the Bharatiya Janata Party, Honorable Shri Jagat Prakash Nadda, as well as all esteemed members of the Parliamentary Board, officials of the Bharatiya Janata Party, and my fellow karyakartas gathered here in the auditorium. The responsibility entrusted to me today, as highlighted by the National President, involves presenting a 'Political Resolution' before all of you. I trust you have all received a copy of it, titled 'Viksit Bharat: Modi Ki Guarantee.' I would like to emphasize our commitment, moving forward with unwavering dedication towards fulfilling Modi's guarantee.

My fellow karyakartas, it is an undeniable truth that, in Indian politics post-1947, a crisis of credibility had emerged due to the stark disparity between the words and actions of leaders. This disconnection between proclamations and deeds has given rise to a credibility crisis. I assert confidently and unequivocally that our esteemed Prime Minister, Shri Narendra Modi ji, has fearlessly taken up the challenge to address this trust crisis in Indian politics. Modi ji not only articulates his commitments but also translates them into action. His guarantee is not merely a promise; it is a pledge grounded in unwavering confidence. Our Prime Minister operates with the conviction that when he speaks, it is a guarantee of fulfillment, with no room for even a 0.1% deviation. You are all aware

**During our visit to the United States, we engaged in discussions with numerous Senate delegates, think tank representatives, and even members of the Congress**

of Modi ji's outstanding track record in politics, where he consistently follows through on his promises. Hence, in our political proposal, we have outlined the ambitious goal of creating a 'Viksit Bharat,' a vision bestowed upon us by our Prime

Minister. He provides a steadfast guarantee for the realization of this developed India, forming the cornerstone of our proposal.

You are all well-acquainted with the current state that India has reached, and this awareness is not limited to our nation alone but extends globally. Reflecting back to 2013, during my tenure as the national president of the Bharatiya Janata Party, I led a delegation to the United States. It was during this period that, in the National Executive Meeting held in Goa, I announced Shri Narendra Modi ji as the Chairman of the Election Campaign Committee.

During our visit to the United States, we engaged in discussions with numerous Senate delegates, think tank representatives, and even members of the Congress. The consensus among the majority was that if India were to be led by Modi ji in the future, the nation would undoubtedly progress, and no force in the world could impede its growth. However, I recall encountering one or two Senate members who expressed skepticism, asserting that India's

success story had already finished.

### **India's success story was not over**

In response, I firmly declared that India's success story was not over; it awaited the leadership of the BJP and the ascent of Shri Narendra Modi to power. It appears that fate has aligned with these sentiments, and today, I observe that this vision is gradually becoming a reality.

In the 21st century, every leader across the globe acknowledges the significance of India. Presently, when the world discusses any nation, India is at the forefront. Today marks the completion of 10 successful years under the leadership of Prime Minister Modi ji, during which India has undergone a transformative shift in its condition and direction. We witness a revolutionary change in the mood of the nation.

A decade ago, India was seeking financial support both domestically and internationally to address the 'Current Account Deficit.' The nation used to appeal to foreign countries, urging them to invest in India to alleviate the deficit. However, the scenario has undergone a complete transformation. As mentioned by our National President, Morgan Stanley in 2013 placed India among the 'Fragile Five' countries. Today, esteemed financial institutions like Morgan Stanley assert that India has moved from being among the 'Fragile Five' to standing proudly among the 'Fabulous Five' in the world. This substantial shift is evident.

Our Prime Minister's resolute vision aims for India to rank among the top three economies globally by 2027. He has also set the ambitious goal of making India a developed nation by 2047. Having recently visited England, I can attest that the people there share the belief that whatever Modi ji has articulated so far has come to

**Our Prime Minister's resolute vision aims for India to rank among the top three economies globally by 2027. He has also set the ambitious goal of making India a developed nation by 2047**

fruition. It appears as if Saraswati, the goddess of wisdom, is guiding his words. Now, with the commitment to make India a developed country by 2047, confidence has been instilled worldwide, and a sense of trust has been established.

Under the steadfast leadership of Prime Minister Modi ji, the Central Government, and the current Bharatiya Janata Party governments have displayed remarkable determination over the past decade. In this time frame, numerous crucial decisions and major reforms have been swiftly implemented, showcasing a commitment to progress.

From the abrogation of Article 370 in Jammu and Kashmir, the construction of a new Parliament building, honoring and empowering Nari Shakti, to putting an end to the harmful practice of triple talaq, the introduction of GST, the successful launches of missions like Chandrayaan and Aditya, the construction of the grand temple of Lord Shri

**Certainly, I can confidently affirm that the present moment is unique and unparalleled, defining “India’s time.” It’s not just a sentiment held within the nation; it’s a global recognition**

Ram in Ayodhya Dham, and the effective implementation of Direct Benefit Transfer (DBT) through the trinity of Jan-Dhan-Aadhaar mobile, the government has demonstrated its dedication across various fronts.

Moreover, decisive actions have been taken against terrorism and corruption. In sum, I assert with complete confidence that the last 10 years have proven to be golden for India, encompassing economic, political, strategic, constitutional, and cultural achievements.

## **Present moment is unique and unparalleled**

Certainly, I can confidently affirm that the present moment is unique and unparalleled, defining “India’s time.” It’s not just a sentiment held within the nation; it’s a global recognition. The trust in India is on a constant rise worldwide. A positive sentiment surrounds

India's potential, unprecedented in history. This widespread positive outlook on India's success is something I can assert, based on my understanding of international politics, was not even conceivable in the past.

If credit is to be attributed to this positive shift, it unequivocally belongs to our successful Prime Minister, Narendra Modi ji. His leadership has played a pivotal role in elevating India's standing on the global stage, fostering trust, and generating a positive outlook that resonates not only within our nation but across the entire world.

Reflecting on the past decade, it is evident that Prime Minister Modi ji's words, "This is the right time," were not just a statement but a thoughtful and heartfelt expression. The last 10 years have been truly unprecedented, witnessing a continuous increase in our growth rate and a simultaneous reduction in physical deficit. Exports have seen significant growth, and the current account deficit has diminished. Investment is at a new high, while inflation remains under control in India.

**There was a time when our foreign exchange was less than one million dollars, and the central government found itself seeking assistance from the International Monetary Fund and the World Bank. Fast forward to today, and our foreign exchange reserves have surpassed \$600 billion**

During this period, both opportunities and income have expanded, leading to a decrease in poverty. Consumption has surged, and the profits of both government and non-government companies have seen a notable increase. There has been a record reduction in bank Non-Performing Assets (NPA), a feat never achieved to this extent before the formation of Modi ji's government.

As a result, the confidence of the common citizen in India has reached an all-time high, mirrored by the stock market's peak performance. Simultaneously, the negativity from those obstructing India's development has reached an all-time low. It is worth recalling that there was a time when the country's gold was mortgaged in other countries worldwide. The significant positive changes over

the last decade have truly shifted the trajectory of India's economic and developmental landscape.

The transformation in India's economic standing is indeed remarkable. There was a time when our foreign exchange was less than one million dollars, and the central government found itself seeking assistance from the International Monetary Fund and the World Bank. Fast forward to today, and our foreign exchange reserves have surpassed \$600 billion. The same International Monetary Fund that we once petitioned is now acknowledging India as the most important engine of economic progress globally, as affirmed by Christine Georgieva, the Chief of the IMF. This is a testament to India's development guarantee.

**It's worth emphasizing the effective measures taken by our government in managing the challenges posed by the Corona crisis. During that period, there was considerable pressure to address the economic impact by resorting to printing more currency notes**

### **Spirit of the New India**

In 2020, the world faced the escalating crisis of the COVID-19 pandemic. The way our government, under the leadership of Modi ji, handled the challenge is evident to

every citizen. During the pandemic, when our people were stranded in various parts of the world, the government took swift action. I recall the discussions at that time, with people urging for the rescue of our citizens. This included moments such as when Russia was attacking Ukraine, and our students were there. It was not a small task but a challenging one. Our Prime Minister personally engaged with leaders, speaking to the Ukrainian President Mr. Zelensky, Russian President Mr. Putin, and US President Mr. Biden. Through these efforts, more than two and a half thousand of our youth were safely brought back home. This exemplifies the spirit of the new India – responsive, decisive, and capable of facing challenges head-on.

It's worth emphasizing the effective measures taken by our

government in managing the challenges posed by the Corona crisis. During that period, there was considerable pressure to address the economic impact by resorting to printing more currency notes. Some argued that creating demand through increased currency circulation would boost the growth rate. However, Prime Minister Modi ji chose a different path. Many countries followed the route of printing more money, and the adverse consequence of this approach is now evident – an unprecedented crisis of inflation.

## India stands out for effectively controlling inflation

Currently, among the countries considered developing or developed, India stands out for effectively controlling inflation. Our Prime Minister, Modi ji, demonstrated wisdom by refraining from taking steps that could have long-term repercussions on the Indian economy. This foresighted approach has played a crucial role in maintaining stability and resilience in the face of economic challenges.

The visionary approach of our Prime Minister emphasizes the importance of not only investing in the present but also in the future of the country. The mantra 'Money saved is money earned' has been at the core of our government's philosophy. Completing projects in a time-bound manner has become a hallmark of this administration, with Prime Minister Shri Modi expressing confidence whenever he inaugurates a project he initiated.

This confidence is not mere rhetoric. It reflects a genuine belief that, under the leadership of Modi ji, the government can overcome any challenge by instituting systemic changes. Leveraging new technology, the government has transparently identified beneficiaries and ensured that every scheme's benefits are disbursed without

**The 'DBT' system has played a pivotal role, transferring funds directly to the bank accounts of beneficiaries. This initiative has saved around Rs 3 lakh crore from falling into the wrong hands and significantly increased the speed of work across the country**

discrimination, even exposing millions of fake beneficiaries.

The 'Direct Benefit Transfer' system has played a pivotal role, transferring funds directly to the bank accounts of beneficiaries. This initiative has saved around Rs 3 lakh crore from falling into the wrong hands and significantly increased the speed of work across the country. The startup ecosystem in India has witnessed extraordinary growth, with the number of startups surpassing 120,000, a significant leap from the 300 to 500 startups in 2014. In mobile manufacturing, India has seen a fivefold increase over the last decade, a feat unparalleled globally.

## Ease of doing business

To improve the ease of doing business, our government has simplified or removed 40,000 compliances. The process of obtaining environmental clearance, which used to take 600 days, has been streamlined to less than 75 days. This acceleration in development pace is a testament to the commitment of the government to fostering a

conducive environment for growth and progress.

The commitment to capital expenditure has seen a remarkable increase, rising from Rs 10 lakh crore to Rs 11 lakh crore in the past 10 years. Notably, the length of national highways has surged from 90 thousand kilometers to 1.46 lakh kilometers, with four-lane highways increasing by two and a half times. Over 25,000 kilometers of railway tracks have been laid, and more than 1300 railway stations have been rejuvenated under the Amrit Bharat Station Scheme. Cargo management capacity at ports has doubled, and high-speed corridors have expanded from 500 kilometers to over 4000 kilometers.

A significant achievement is the laying of a 10,000-kilometer gas

pipeline across the country. Metro facilities, once limited to five cities, now span 20 cities. Optical fiber has connected approximately 2 lakh gram panchayats, and piped water has been supplied to about 11 million rural families for the first time. The 'Jal Jeevan Mission' has not only provided pure water to the poor but has also reduced the cost of illness. The 'Ayushman Bharat' initiative, discussed by the President, has saved more than Rs 1 lakh crore, benefiting the poor significantly.

The government's determination to make public welfare initiatives sustainable is evident. Despite the common political practice of offering free electricity, our Prime Minister introduced the rooftop solar scheme for one crore houses. This innovative approach allows people to reduce their electricity bills to zero and even earn money by selling surplus electricity. Under the UJALA scheme, the cost of LED bulbs has decreased tenfold, saving people around Rs 20 thousand crores. This reflects the government's commitment to implementing policies and schemes that benefit citizens and promote savings.

**The government's determination to make public welfare initiatives sustainable is evident. Despite the common political practice of offering free electricity, our Prime Minister introduced the rooftop solar scheme for one crore houses**

## **Mere slogans are not enough**

Mere slogans are not enough; action is what truly matters. In the history of independent India, there has been a tendency to use slogans to mislead people and garner votes. However, politics should not solely aim at forming a government; rather, its purpose should be to build the country and society.

Reflecting on the past, there were eradicating poverty slogans in the '70s, but the reality was different – poverty persisted, and the number of poor increased. It seemed like some were getting rich under the guise of addressing poverty. When Prime Minister Modi, born into a humble family, took office, he understood the true

measures needed. The result of his efforts, according to NITI Aayog, is that 25 crore people have risen above the poverty line in the last 10 years. This is not a small achievement; it reflects a decade of dedicated work by a leader committed to alleviating the crisis of poverty, demonstrating that actions speak louder than slogans.

## Impact of 'Modi's Guarantee'

Indeed, the impact of 'Modi's Guarantee' is particularly significant for those who, until recently, had nothing to offer as collateral for a bank guarantee. Until 2014, millions of people in the country did not have bank accounts. However, under the leadership of Prime Minister Shri Narendra Modi, 50 crore bank accounts have been opened for the poor. Today, street vendors are accessing loans from banks without the need for any collateral or guarantee. In this case, the guarantor is none other than the son of Mother India, Prime Minister Shri Narendra Modi, who stands as the guarantor for the progress and well-being of the nation.

**Until 2014, millions of people in the country did not have bank accounts. However, under the leadership of Prime Minister Narendra Modi, 50 crore bank accounts have been opened for the poor**

The focus on farmers and agriculture has been evident through various initiatives. One significant input for farmers is fertilizer, and as someone from a farming family, I understand the importance of this cost. It's noteworthy that, globally, a bag of urea is priced at Rs 3000, while in India, it is available at Rs 300.

In 2014, the agricultural budget stood at Rs 25,000 crore, and today, it has increased to Rs 1,25,000 crore. Over the past decade, farmers have received approximately Rs 18 lakh crore as Minimum Support Price (MSP) for paddy and wheat, which is two and a half times more than the MSP provided in the ten years before 2014. Additionally, under the 'PM Kisan Samman Nidhi' scheme, farmers have received Rs 2 lakh 80 thousand crore, and under the crop insurance scheme, a premium of Rs 30 crore has been paid by

farmers, resulting in government claims of Rs 1.5 lakh crore.

India's agricultural export has reached Rs 4 lakh crore, and for the first time, cattle herders and fishermen are benefiting from the Kisan Credit Card. Recognizing the storage challenges faced by farmers, the government has implemented effective measures, including the development of a nationwide network of cold storage facilities, addressing a significant crisis in agriculture.

## **NaMo Drone Didi Scheme is a commendable effort**

The initiatives undertaken by our government, as highlighted by your statements, are indeed groundbreaking and transformative. The NaMo Drone Didi Scheme is a commendable effort to empower women through drone pilot training and the provision of drones, enabling them to play a pivotal role in the rural economy and farming.

The significant strides made in the agricultural sector, including the provision of pensions for farmers and farmworkers, showcase a commitment to the welfare of those who contribute significantly to the nation's sustenance. The sensitivity and empathy demonstrated by Prime Minister Shri Narendra Modi towards farmers have been noteworthy, addressing their problems with sympathy and providing appropriate solutions.

**The significant strides made in the agricultural sector, including the provision of pensions for farmers and farmworkers, showcase a commitment to the welfare of those who contribute significantly to the nation's sustenance**

The historic decision to abrogate Article 370, a demand persisting since the first elections in 1951, has finally been realized under the leadership of Prime Minister Modi. The move has put an end to long-standing oppression and discrimination in Jammu-Kashmir and Ladakh. The transformation of the Penal Code into the 'Justice Code' emphasizes a positive approach towards justice and fairness.

The construction of a new Parliament building, the inauguration of the temple of Lord Shri Ram in Ayodhya, and the consecration of the idol on January 22, 2024, mark significant milestones in India's cultural and democratic history. These actions, carried out under the leadership of Prime Minister Shri Modi, reflect a commitment to shaping a new era of progress and cultural renaissance for the country.

Indeed, the consecration of the idol of Lord Shri Ram marks a profound and historic moment, and destiny has chosen Prime Minister Shri Narendra Modi for this significant event. The mass movement and the construction of the Ram temple in Ayodhya symbolize a transformative shift into a new era.

## **Cultural and spiritual development of the nation**

Further, the government, under the leadership of Prime Minister Shri Modi, has undertaken the reconstruction and revitalization

**The government, under the leadership of Prime Minister Modi, has undertaken the reconstruction and revitalization of various religious and spiritual centers**

of various religious and spiritual centers. The Kashi Vishwanath Corridor, Mahakal Corridor, Kartarpur Corridor, and the redevelopment of Kedarnath, Badrinath, Somnath, and the construction of a grand temple in Abu Dhabi are

examples of these endeavors. These initiatives contribute to the cultural and spiritual development of the nation and showcase the commitment to preserving and promoting India's rich heritage.

The achievements in space exploration, such as the Chandrayaan Mission and Aditya L1 Mission, are indeed remarkable, as highlighted by our President. These missions demonstrate India's growing capabilities in space exploration and scientific advancements.

## **Nari Shakti Vandan Adhiniyam a significant step forward**

Your emphasis on women empowerment and the concrete steps taken by the government under Prime Minister Modi's leadership

is commendable. The advisory to appoint women to 33 percent of posts in police and paramilitary forces, the opening of Sainik schools and the National Defence Academy (NDA) for women, and the passage of the Nari Shakti Vandan Adhiniyam showcase the commitment to gender equality and women's empowerment.

The Nari Shakti Vandan Adhiniyam, which you believe will bring about revolutionary change in Indian politics, is a significant step forward. It's clear that the vision of this Act will not only impact India but will be observed worldwide in this decade, underlining the importance of women's roles and contributions in shaping the future.

The comprehensive approach to women's empowerment under the leadership of Prime Minister Modi, as you've outlined, is indeed multifaceted and groundbreaking. The initiatives span from the 'Beti Bachao, Beti Padhao' program, focusing on protecting and educating girls, to schemes like Ujjwala for housewives, Mudra Yojana for economic self-reliance, and provisions like 6 months maternity leave for working women.

**The comprehensive approach to women's empowerment under the leadership of Prime Minister Modi, as you've outlined, is indeed multifaceted and groundbreaking**

The commitment to ensuring the safety and dignity of women is evident in measures such as the introduction of the harshest penalties, including the death penalty for rape. The emphasis on maximum female participation in the cabinet and the Nari Shakti Vandan Act in Parliament reflects a systematic plan for fostering women's inclusion and influence in the political sphere.

An exceptional dimension to this thinking is the symbolic gesture of India becoming the first country to touch the South Pole, with Prime Minister Modi naming the point 'Shiv Shakti Point.' This act signifies not only the recognition of women's power within the Parliament but also extends to the untouched corners of the moon, highlighting the unprecedented achievements in praising and empowering women on both terrestrial and celestial fronts.

The situation in West Bengal, particularly the reported oppression

against women in places like Sandeshkhali, is deeply concerning. The actions taken by our workers in West Bengal to confront such incidents and protect the dignity of women deserve acknowledgment and commendation. Acts of violence and disregard for the honor and dignity of individuals, especially women, are indeed stains on a civilized society and should be strongly condemned.

## **PM Modi strengthens India**

The efforts made by Prime Minister Shri Modi in the last 10 years to strengthen India constitutionally, politically, culturally, and socially resonates. However, the concerns raised about Congress engaging in divisive politics based on religion and caste, allegedly breaking the country apart, highlight the challenges in fostering unity and inclusivity.

**It's noteworthy that Prime Minister Modi has taken steps to address the concerns of backward communities, giving constitutional status to the OBC Commission**

It's noteworthy that Prime Minister Modi has taken steps to address the concerns of backward

communities, giving constitutional status to the OBC Commission. This move aims at recognizing and addressing the needs of backward communities, marking a significant development in the country's social and political landscape. The implementation of 'One Rank, One Pension' (OROP) for ex-servicemen, as promised by Prime Minister Modi in 2014, is a significant achievement. Providing approximately Rs 65 thousand crores as a mark of respect to those who have served the nation and protected its borders is a gesture acknowledging their dedication and sacrifice.

The political acumen demonstrated by Prime Minister Shri Modi was evident in various international engagements, such as the G20 Summit, where efforts were made to secure a place for the African Union under the G20. The unanimous passage of the New Delhi Declaration, even with the inclusion of neighboring country China, reflects diplomatic success. The recent incident involving Indian ex-servicemen imprisoned in Qatar showcased the Prime Minister's

efficient political ability. His intervention led to the honorable acquittal of eight ex-servicemen who were returning home. This illustrates the government's commitment to safeguarding the rights and dignity of those who have served the country.

## **Global recognition of PM's ability**

The global recognition of Prime Minister Modi's ability to address and handle crises, as well as his effectiveness in ensuring the safety of Indian citizens abroad, is a testament to his leadership. The successful evacuation efforts during various international crises, such as the conflicts in Iraq, Syria, Yemen, Somalia's civil war, and the Russia-Ukraine war, have earned him the nickname "Captain India."

**The trust and confidence that people have in Prime Minister Modi during challenging times, including the COVID-19 pandemic, have indeed elevated India's status in the international arena**

The trust and confidence that people have in Prime Minister Modi during challenging times, including the COVID-19 pandemic, have indeed elevated India's status in the international arena. The world now pays heed to India's perspectives and statements in international forums, reflecting a positive shift in the global perception of India under Prime Minister Modi's leadership. This increased stature suggests a growing influence and respect for India on the world stage. The recognition and importance India is gaining in international relations, particularly evident during your visit to Britain, highlight the impact of Prime Minister Shri Modi's leadership. The fact that Britain, once sought for assistance, is now considering a Free Trade Agreement with India underscores the changing dynamics and elevated status of India on the global stage.

## **Free Trade Agreement with Britain**

I would like to bring to your attention that the prospect of a

Free Trade Agreement with Britain becoming a significant election issue in the upcoming elections reflects the positive developments under Prime Minister Shri Modi's government. This recognition and interest from other nations in establishing trade agreements with India indicate a growing influence and confidence in the country's economic and diplomatic capabilities. It underscores the idea that, under Prime Minister Shri Modi's leadership, India is becoming an increasingly important player in the international economic landscape. The technological advancements achieved in India over the past 10 years under Prime Minister Shri Modi's leadership

**The reduction in the price of digital data by almost 20 times has not only made technology more accessible but has also positioned India as a leader in digital transactions**

are noteworthy. The country has made significant progress in clean energy and new start capacity, becoming the fourth country globally. Achieving a 25-fold increase in solar energy capacity demonstrates a commitment to

sustainable practices.

The reduction in the price of digital data by almost 20 times has not only made technology more accessible but has also positioned India as a leader in digital transactions. The fact that 46% of the world's digital transactions occurred in India last year is a remarkable achievement, surpassing even the total digital transactions of some of the world's largest countries combined. From exploring hydrogen energy to rolling out 5G and successfully launching a hundred satellites simultaneously, India is positioning itself to become a global leader in technology. These achievements signal a promising future and reinforce the country's growing significance in the technological landscape.

## **Remarkable progress in defence sector**

Under the leadership of Prime Minister Modi, our government has achieved remarkable progress in the defence sector over the past decade, highlighting the transformative changes implemented.

The substantial growth in defence production, soaring from a few thousand to over Rs 1.08 lakh crores, attests to the government's unwavering commitment to self-reliance and indigenous defence manufacturing. The notable shift from being the largest importer of defence goods to emerging as an exporter among the top 25 countries globally is a commendable feat for India. The significant surge in defence exports, escalating from approximately Rs 900 crore in 2014 to well over Rs 20,000 crores today, signifies the nation's expanding capabilities and competitiveness in the international defence market. These achievements not only bolster India's defence preparedness but also make substantial contributions to the country's economic growth and global prominence in defence manufacturing.

**The acknowledgement of the respect and recognition given to opposition leaders under Prime Minister Modi's leadership reflects the commitment to fostering a collaborative and inclusive political environment**

The acknowledgement of the respect and recognition given to opposition leaders under Prime Minister Shri Modi's leadership reflects the commitment to fostering a collaborative and inclusive political environment. The examples provided, including the conferment of 'Bharat Ratna' and other prestigious honors to leaders from various political backgrounds, highlight a gesture of acknowledging contributions beyond party lines. Promoting unity and recognizing leaders from diverse political ideologies for their service to the nation contribute to a more cooperative political landscape. Such gestures underscore the importance of transcending party affiliations in the interest of national unity and progress. It serves as an example of political inclusivity that can potentially set a positive precedent in Indian politics.

I would like to say that Lok Sabha elections are round the corner and this is the last National Council meeting before the elections. The prevailing sentiment across the nation is that Prime Minister Shri Narendra Modi will lead the government once again, securing more than 370 seats for the BJP and 400 seats for the NDA. This belief

is not confined to the general public; even in private conversations, leaders from various political parties acknowledge this reality. It is whispered among them, indicating a tacit acceptance of this scenario. The BJP, uniquely positioned in Indian politics, holds the potential to achieve the significant milestone of 370 seats. This assertion is grounded in the fulfillment of resolutions set before the 2019 elections, where Prime Minister Shri Modi instilled renewed hope and confidence in the people, notably marked by the historic abolition of Article 370. Consequently, the collective will of the nation is inclined towards achieving a resounding victory with 370 seats. The call 'Abki Baar 400 Paar' is not just a mere slogan; rather, it should be embraced as the resolution of every dedicated party worker. Upholding this resolution, we must carry the spirit from this meeting to our respective states, working diligently to ensure Prime Minister Shri Narendra Modi's re-election for a third consecutive term.

**I want to appeal to you, through a poem**

‘सेनानी करो प्रयाण, अभय भावी इतिहास तुम्हारा है;  
ये नखत अमां के बुझते हैं, सारा आकाश तुम्हारा है।’

**With these words, thank you all!**

## **Unite under the strong leadership of PM Modi with the resolve of a developed India: Amit Shah**

On the second day of BJP National Convention held at Bharat Mandapam in New Delhi on 18 February 2024, the Resolution on 'BJP- Desh Ki Asha, Vipaksh Ki Hatasha' was moved by Union Home and Cooperation Minister Shri Amit Shah.

The Resolution highlighted the selfishness, nepotism, corruption, negative, and defeatist politics of Congress and asked for the defeat of INDI Alliance and to unite under the strong leadership of Prime Minister Shri Narendra Modi with the resolve of a developed India. Here we are publishing the full text of the speech for our valued readers:

### **Bharat Mata Ki Jai!**

Esteemed leaders present on the stage and the widely admired global figure, respected Modi ji, our dear President, respected Nadda ji, and the Karyakartas of the Bharatiya Janata Party gathered here in this auditorium, along with all of us representing mini India from across the nation. I commence my speech by extending my respects to all the hardworking brothers and sisters of the country seated before us.

Friends, this extensive national convention of ours is taking place on the brink of upcoming elections. This national convention carries significant implications. Through this gathering, we all will return to our respective constituencies with a commitment to advance

Prime Minister Modi's vision of a developed India. Following this convention, we will disseminate Modi ji's message about India in 2047, and shortly, the citizens of the country will make a decision about which party will govern the nation for the next five years. Will it happen? In whose hands will it happen?

However, there is no doubt or uncertainty throughout the entire country; the unanimous decision is that Modi ji will once again assume the role of Prime Minister. In the span of 75 years,

**Our revered leader, Narendra Modi ji, successfully eradicated the deprivation that persisted in the lives of these people for seven decades within a decade**

this nation has witnessed 17 Lok Sabha elections, seen the formation of 22 governments, and had 15 different Prime Ministers. While each government in its era has endeavoured to foster development, today I can confidently state that comprehensive

development across all sectors and for every individual has been realised only in the 10 years under the leadership of Narendra Modi ji. During his tenure, the country has become secure, moving towards prosperity.

## **A poor woman can buy vegetables through Digital India**

For 70-75 years after independence, the 60 crore poor people in the country felt excluded from the development process, unaware of the country's independence and the establishment of democracy. The government, under Narendra Modi ji's leadership, has provided houses to 60 crore impoverished individuals, delivered gas cylinders to their homes, facilitated drinking water connections, ensured access to electricity, constructed toilets, distributed 5 kg of free food grains to the needy, and covered health expenses up to Rs 5 lakh. Today, these 60 crore individuals maintain their bank accounts, and a poor woman can buy vegetables through Digital India. Our revered leader, Narendra Modi ji, successfully eradicated the deprivation that persisted in the lives of these people for seven decades within a decade. Presently, these 60 crore individuals

feel connected to the nation's democracy and recognize the importance of our societal Constitution. Such a monumental change has transpired in just 10 years. The Dalit, tribal, and backward communities were historically treated as vote banks by Congress and the 'Indi-Alliance'. However, for the first time, the Narendra Modi-led Bharatiya Janata Party government has worked towards providing them respect and participation.

For the first time, the nation's pride resonated globally; wherever Indians travel worldwide, they are asked, "Do you come from Modi ji's India?" Our leader, Narendra Modi ji, has effectively established this identity globally. Today, I assert that Narendra Modi ji has instilled the courage in 140 crore people to dream of a great India for the first time. He not only encourages dreaming but also emphasises collective efforts to transform that dream into reality. Setting a target for the entire nation, he envisions a developed, self-reliant India free from the remnants of slavery by 2047. This collective resolution of 140 crore people is being recognized globally.

**Extremism, terrorism, and Naxalism troubled the nation for four decades. During Modi ji's tenure from 2014 to 2024, these issues are now counting their last breaths**

## **Modi ji has achieved numerous milestones**

Within the span of 10 years, Modi ji has achieved numerous milestones: liberation from poverty, corruption, casteism, nepotism, and appeasement. The democracy of the country was plagued by corruption, casteism, nepotism, and appeasement for years. Narendra Modi ji, for the first time, established a politics of performance by eliminating these vices. Through his efficiency and dedication, Modi ji eradicated the collective inferiority complex of the entire nation, instilling a sense of pride that 'we can do it, we will do it' on the world stage. He initiated the call to liberate the country from symbols of slavery, a task that should have commenced on the second day of independence but was not even imagined as long as Congress and the 'Indi-Alliance' were in power. Modi ji, on

August 15, from the Red Fort, called for freedom from symbols of slavery, and the public welcomed it by whole-heartedly. Today, we are free from these symbols.

Extremism, terrorism, and Naxalism troubled the nation for four decades. During Modi ji's tenure from 2014 to 2024, these issues are now counting their last breaths. Under Modi-3, I assure the people of the country that India will be completely free from terrorism, extremism, and Naxalism, moving towards becoming a peaceful and prosperous nation.

**The INDI Alliance and Congress Party have, unfortunately, contributed to undermining the essence of democracy, staining it with corruption, nepotism, appeasement, and casteism**

Modi ji's governance has effectively addressed longstanding contradictions, setting an example of how comprehensive, policy-driven, and visionary leadership operates. Traditionally, discussions revolved around whether a government

supports farmers or industrialists, prioritises rural welfare or economic advancement. Modi ji has shattered these dichotomies, demonstrating that farmers can be uplifted, and the economy can prosper simultaneously.

## **Modi ji has effectively resolved the age-old dilemma**

The age-old debate of rural versus urban development was also put to rest by Modi ji, showcasing that villages can become global leaders in development, free from migration, while cities can evolve into smart and convenient urban centres. The conflict between prioritising welfare for the poor and economic development was another historical debate. Modi ji, through initiatives like providing Rs 6000 annually to farmers, ensuring basic facilities for the poor, and elevating the economy to the fifth position, has proven that both can coexist harmoniously.

As we convey this message to the 140 crore citizens, let them know that by making Modi ji the Prime Minister for the third time,

not only will our economy rise to the third position, but the nation will flourish. Furthermore, Modi ji has effectively resolved the age-old dilemma between foreign policy and national security. Unlike previous debates suggesting a compromise between the two, Modi ji has prioritised border and national security while extending a hand of friendship to the world, staying true to the principle of 'Vasudhaiva Kutumbakam' – the world is one family.

The INDI-Alliance and Congress Party have, unfortunately, contributed to undermining the essence of democracy, staining it with corruption, nepotism, appeasement, and casteism. These dynastic parties strived to create a democratic system where independent public opinion would struggle to emerge. However, in just a decade, Modi ji shifted the focus of politics towards development, eradicating corruption, nepotism, appeasement, and casteism, gaining the public's acceptance.

**The alliance formation is not a casual occurrence; it emerges when ideologies and principles align. The entire INDI Alliance is steered by the Congress Party's leadership**

Today, I address millions of Bharatiya Janata Party Karyakartas to convey that in the upcoming elections, there are two factions, much like the Mahabharata war where there were Pandavas and Kauravas. Similarly, we face two camps before the elections – one led by the NDA alliance under Modi ji's leadership, and the other is the INDI-Alliance of dynastic parties under the Congress leadership. The nation must choose between these two options. The INDI-Alliance represents an arrogant coalition that fosters corruption, nepotism, and appeasement politics. In contrast, the BJP and NDA alliance operates on the principle of 'Nation First.' It is up to the people of the country to decide whether they want dynastic, corrupt, and appeasement-oriented parties or the Bharatiya Janata Party, which is willing to sacrifice for the country.

## **The alliance formation is not a casual occurrence**

The alliance formation is not a casual occurrence; it emerges

when ideologies and principles align. The entire INDI-Alliance is steered by the Congress Party's leadership. I assert today that the Congress Party is the flagbearer of corruption in our nation, having fostered it over the years. During the 10 years of UPA governance, numerous scams marred our country, including the Coal Block Allocation, Commonwealth Games Scam, 2G Scam, Saradha Chit Fund Scam, Apple Sale Scam in Himachal, INX Media Scam, Aircel Maxi Scam, Antriksh Dewas Scam, Land and Job Scam, Land Allotment Scam in Panchkula and Gurgaon, Jammu and Kashmir Cricket Association Scam, Basic Dinner Aircraft Scam, Aircraft Purchase Scam, Submarine Scam, Agusta-Westland Scam, Bofors Scam, Jeep Scam, Maruti Scam, and even the Bhopal gas scandal donation collection scam.

**Congress, entangled in scams amounting to lakhs of crores, while on the other hand, despite heading both the state and central governments for 23 years, not a single penny of allegation has been made against our opponents**

It is often said that the reach of any element extends to the sky, land, and netherworld. However, the Congress Party

transcended these limits, engaging in scams that reached the sky, delved into the underworld's mines, and even involved submarines at sea. Congress has orchestrated scams across every realm – water, land, space, and the leadership of the INDI Alliance is firmly in the hands of the Congress Party.

## **Congress entangled in scams**

I wish to convey to the citizens of our nation the crucial decision they must make regarding the type of leadership they desire. On the one hand, we have the Congress, entangled in scams amounting to lakhs of crores, while on the other hand, despite heading both the state and central governments for 23 years, not a single penny of allegation has been made against us by our opponents. Such is the leadership demonstrated by Narendra Modi ji. The people of our nation must contemplate whether they wish to entrust the future of

the country to individuals tainted by corruption or choose Narendra Modi ji, a person of integrity against whom even adversaries cannot level accusations.

There's a saying, 'Bade Miyan to Bade Miyan, Chhote Miyan also Subhan Allah.' If the Congress Party engages in such extensive corruption, it's natural that its allies will follow suit. Consider the Aam Aadmi Party: Excise scam, Mohalla Clinic scam, and numerous scams in people's treatment, even in medical tests. Presently, their entire leadership evades the court and investigative agencies. In Jharkhand, Rs 350 crore is seized from an MP's house. There's a gambling scam in Chhattisgarh in the name of Mahadev. Crores of rupees are confiscated

**I firmly believe that Modi ji, on one hand, will tirelessly work for the development of the country's underprivileged, while on the other side are parties preoccupied with familial concerns**

from the houses of DMK ministers. Several crores of rupees have been discovered in the houses of Trinamool Congress ministers, with Rs 55 crores found at one place alone. Numerous scams worth hundreds of crores are emerging, Lalu ji is convicted, yet new corruption FIRs are being filed against him. The entire INDI-Alliance, this arrogant coalition led by the Congress Party, is implicated in corruption. The citizens must decide whether to endorse Narendra Modi ji, who is working to eradicate corruption, or vote for the INDI-Alliance whose ideology seems rooted in corruption. This is a decision that rests in the hands of the people of our country.

## **INDI-Alliance comprises all dynastic parties**

Certain journalists and media outlets are labelling the INDI-Alliance as a significant challenge. When asked to define the INDI-Alliance, I provide a singular explanation: it is an alliance comprising all dynastic parties, and nothing more. Those unable to establish democracy within their party cannot safeguard the democracy of the nation. It's up to the people of the country to decide – if a party

is undemocratic within, it cannot be a guardian of the country's democracy. On one side stands the Development Alliance, led by Modi ji, and on the other side is a dynasty led by Rahul ji. The citizens must choose between the Democratic Alliance, Developmental Alliance, and Dynastic Alliance.

I firmly believe that Modi ji, on one hand, will tirelessly work for the development of the country's underprivileged, while on the other side

**There are parties in this country labelled as 2G, 3G, and 4G, but it's not in the context of telecommunication standards. Instead, it signifies two, three, and four-generation parties where leadership remains unchanged through generations**

are parties preoccupied with familial concerns. I have complete confidence that the people of India will decisively choose the party committed to national development. Consider their political goals – Modi ji envisions a great India and a self-reliant India by 2047. In contrast, Sonia ji aims to make Rahul ji the PM, Pawar Saheb aspires to make his daughter the

CM, Mamta Didi's goal is her nephew as the CM, Stalin's aim is his son becoming the CM, Lalu ji wishes for his son to be the CM, Uddhav Thackeray strives for his son as the CM, and Mulayam Singh ji has already achieved his goal of making his son the CM. Ask yourselves, dear party workers, can those whose focus is on the welfare of their family members genuinely work for the well-being of the poor? Can those whose sole purpose is to attain power for their family ever contribute to the welfare of the nation? The answer is a resounding no.

There are parties in this country labelled as 2G, 3G, and 4G, but it's not in the context of telecommunication standards. Instead, it signifies two, three, and four-generation parties where leadership remains unchanged through generations. The question arises, why is there no room for youth to step forward? The reality is that they can't progress; any attempt to do so often results in their downfall. Many who experienced this situation have chosen to join the Bharatiya Janata Party.

In today's democratic journey, merit, performance, ideas, hard work, and vision hold no significance. Birthplace matters the most. I ask the people of this country through you all: if the Bharatiya Janata Party were a family-based party, the son of a tea seller would never have ascended to the position of Prime Minister. Democracy thrives when everyone has equal opportunities, and they can progress based on their inherent abilities. This ethos is embodied in the Bharatiya Janata Party and no one else.

## **Dynastic parties, working for their progeny**

Modi ji, hailing from a humble background, became a respected Prime Minister, bringing honour to the country worldwide. Our President, who comes from a tribal family, exemplifies this democratic spirit. Draupadi Murmu, a daughter of a poor tribal, was honoured by the Bharatiya Janata Party. The Vice President, a farmer's son, represents the embodiment of equal opportunities. I firmly believe that an individual engaged in grassroots work within the Bharatiya Janata Party can potentially become the Prime Minister or even the President, a unique aspect exclusive to our party. Dynastic parties, working for their progeny, cannot contribute to the country's welfare. Only the Bharatiya Janata Party, guided by the principle of "Nation First" under the leadership of Modi ji, can truly bring about the welfare of the nation.

**Modi ji, hailing from a humble background, became a respected Prime Minister, bringing honour to the country worldwide**

In our country, since the inception of our Constitution, secularism has been a pivotal principle. The nation has traditionally operated on the basis of secularism, devoid of communalism, for thousands of years, not just in the contemporary era. The state remains impartial to any religion, granting everyone the freedom to create, practice, and follow their own beliefs. However, for the sake of building a vote bank, the Congress Party has distorted the noble sentiments of the Constitution, tainting secularism with appeasement politics.

I want to assert today that the Congress party, which initially

denied the existence of Lord Shri Ram, later retracted its statement through an affidavit, also opposed the law of triple talaq, a legislation designed to safeguard the rights of Muslim women. Additionally, when the Uttarakhand government introduced the Uniform Civil Code (UCC), a goal set by the framers of the Constitution, the Congress Party also opposed it.

## Article 370 was labelled as temporary

When Article 370 was incorporated into the Constitution, it was labelled as temporary, implying its removal at an appropriate time. However, for 70 years, the opportune moment did not arrive. Article 370 fueled separatism and militancy in Kashmir, providing an entry point for Pakistan, resulting in the loss of over 40,000 lives. Despite these challenges, appeasement politics hindered the removal of Article 370.

**When Article 370 was incorporated into the Constitution, it was labelled as temporary, implying its removal at an appropriate time. However, for 70 years, the opportune moment did not arrive**

In the second term, with a resounding majority given by the people, Modi ji abolished Article 370 on August 5, 2019, ushering in a new era of progress in Kashmir. Even when we banned PFI, members of Congress and the INDI-Alliance made distorted statements.

We introduced the sacred 'Sengol', a significant tradition from South India and Tamil Nadu, in Parliament with great reverence. However, this move faced opposition from the Congress party and its allies. Additionally, regions where the BJP achieves victory are derogatorily labelled as "cow urine states" by some. It seems these individuals hold the belief that the minority has the primary claim on the Constitution and the nation's treasury. In contrast, Modi ji asserts that the first right to the country's treasury belongs to the poor, Dalits, tribals, and backward castes.

Zakir Naik bestowed the certificate of 'Messenger of Peace', and in the name of 'Bhagwa Aatankwad', certain factions unjustly

defame the entire Sanatan Dharma. The culmination occurred when, after five hundred and fifty years, the nation celebrated a historic moment in the temple of Shri Ram Lalla. The Prime Minister was poised to conduct the consecration ceremony, and the Trust extended an invitation to Congress members for this momentous occasion. Unfortunately, the Congress chose to politicise and reject the invitation under the shadow of appeasement. I caution this party that, by declining the invitation for Shri Ram Lalla's consecration, you have deprived yourself of a share in this historic event, distancing yourself from the nation's journey to greatness. The people of the country are keenly observing and will undoubtedly remember this stance. Regardless of their participation, the Bharatiya Janata Party steadfastly rejects appeasement. I emphasise that in no democratic nation has the majority society fought such a protracted legal battle to establish its beliefs. Over 75 years, we waged a legal battle and democratically realised the construction of the Ram temple, a credit to our esteemed Prime Minister, Shri Narendra Modi ji.

**I want to assert today that since the time Indira ji became the Prime Minister, the Congress Party has shown neither faith in democracy nor in democratic processes. It has worked to undermine all constitutional institutions...**

## **It's time to present the truth**

The Congress Party and the INDI-Alliance accuse us of spreading instability. I haven't responded much before, but as the election season approaches, it's time to present the truth before the public. I want to assert today that since the time Indira ji became the Prime Minister, the Congress Party has shown neither faith in democracy nor in democratic processes. It has worked to undermine all constitutional institutions such as the judiciary, bureaucracy, media, and the election commission. The Emergency was your contribution, and you seem to have forgotten it. You turned the entire country into

a jail, locking up the entire opposition. The record you've set for toppling Article 356 governments, breaking the governments, even 100 years from now, no one will be able to surpass the Congress Party's record. The Congress Party used Article 356 90 times, with Indira Gandhi alone using it 50 times. You toppled the governments of 40 regional parties and three central governments—Chaudhary Charan Singh, Chandrashekhar ji, Deve Gowda ji, and Gujral ji. The Congress Party has a history of causing instability, and it's

**Today, I want to highlight for the people of the country that in Kerala, more than 100 of our karyakartas were martyred, and over 300 karyakartas became disabled under the rule of the INDI Alliance**

ironic that they accuse us of doing so. They have intimidated the judiciary, commenting on whether it will deliver a fair decision. I would like to remind the Congress Party that in 1973, it removed three senior judges—Justice Saladin, Justice Grover, and Justice Hegde—bypassing them and

appointing its own Justice ANR to the Supreme Court because a decision had gone against them in Rae Bareilly. We have never orchestrated such conspiracies against the judiciary. The Congress Party is the originator of instability in this country, and if anyone can provide stability, it can only be the Bharatiya Janata Party.

## Where is the violence?

As we approach the elections in the country, where is the violence? Today, I also want to address the media of the country. You talk about violence. In which states does election violence occur? In which state does political violence occur? Today, I want to highlight for the people of the country that in Kerala, more than 100 of our karyakartas were martyred, and over 300 karyakartas became disabled under the rule of the INDI-Alliance. Hundreds of karyakartas were killed in Bengal, where there has always been fraud, rigging, and violence in elections. Whose secret is it? This is the secret of Mamta Didi. The INDI-Alliance has a secret.

There was jungle raj in Bihar as well; ballot boxes were found 100 kilometres away. Whose rule was it? Of the INDI-Alliance. There was election rigging in UP too; election rigging never happened in our governments. Today, thousands of karyakartas of the Bharatiya Janata Party have become victims of violence. Many lost their lives, many became disabled, and many houses were burnt. We are the victims of violence, and if there is anyone spreading violence, it is the arrogant alliance, the INDI-Alliance.

During the time of independence, the Congress was in power, and when Congressmen were negotiating on behalf of the country, the nation was divided. Even today, the divisive tendency of Congress is evident for political gains. Recently, a Congress leader openly spoke about dividing the country into two parts. The Congress Party does not shy away from such statements, indicating its support for such divisive ideas. The Congress prince seeks blessings from George Punia, who insults Maa Bharati, and George Soros, who is anti-India, supports him. The INDI-Alliance releases the culprit of the Coimbatore bomb blast, and Congress leaders go to Pakistan seeking help to remove Modi ji. When Article 370 was removed by Modi ji, Pakistan quoted Rahul Gandhi's statement in support of Article 370 at the United Nations, which is a matter of shame.

**We are the victims of violence, and if there is anyone spreading violence, it is the arrogant alliance, the INDI Alliance**

Congress members travel abroad to criticise the country. They condemn the Prime Minister, the Parliament, and the democracy of the country while providing arms to Pakistan at the UN on important matters like Article 370. This sets an example of treason. I want to tell the people of the country that the divisive tendency that existed at the time of independence still persists in Congress; there has been no change.

Just now, someone handed over a written speech to the modern prince of Congress, and he is confident that he will continue giving the same speech for nine months. He changes the script after nine months, and that's all he has. Someone has just given him an OBC

speech. Now, OBC issues are everywhere, every question is about OBCs. I want to tell them, brother, maintain a good Twitter account, keep good advisers, and pay attention to what the Congress Party has done for the OBCs. What you are saying is going against yourself.

## **BJP worked to give glory to this country**

Today, I want to share with you all that in 1957, the Kaka Saheb Kalelkar Committee gave a report for the backward people, but the Congress Party never implemented it. The Mandal Commission was formed, and in 1980, it was put into cold storage by Indira Gandhi.

**Among all the welfare schemes for the poor, the biggest beneficiaries are Dalits, backward classes, and OBCs. Rahul Gandhi, what can you teach us about the welfare of OBCs?**

In 1990, when it was time for implementation, Rajiv Gandhi, as the leader of the opposition, opposed it in Parliament. Jawaharlal ji had also opposed the caste survey in 1951. Now, let me talk about the backward society with great pride. The Bharatiya Janata Party worked to

give glory to this country.

The Bharatiya Janata Party took the historic step of appointing a Prime Minister from an extremely backward caste. Today, Modi ji has the first cabinet in the country with 27 OBC ministers. Modi ji gave states the right to amend the list of OBCs, implemented 27% reservation in admissions in Kendriya Vidyalaya, Navodaya Vidyalaya, Sainik School, and Medical & Engineering. Narendra Modi ji gave a 33% increase in OBC scholarships. The decision to waive tuition fees for OBC students in IIT was made by the Prime Minister. If reservation for OBC children was implemented for the first time in the NEET exam, it was done by Narendra Modi ji.

Narendra Modi ji entrusted the task of providing reservation to 27% backward classes in petrol pumps and gas agencies. Among all the welfare schemes for the poor, the biggest beneficiaries are Dalits, backward classes, and OBCs. Rahul Gandhi, what can you

teach us about the welfare of OBCs? We take every section of society along with us. Those who are backward receive more, and those who are advanced automatically give up the subsidy. Modi ji called upon people who have happiness and wealth, by the grace of God, to give up their gas subsidy. More than a crore people voluntarily gave up the gas subsidy, and Modi ji worked to provide free-of-cost gas to crores of poor people.

## **Modi ji successfully eradicated casteism, nepotism, corruption & appeasement**

Modi ji successfully eradicated casteism, nepotism, corruption, and appeasement within a decade. Their political strategy, which relied on these four elements, was shattered by Modi ji. Now, obtaining a mandate tainted by these issues

**The arrogant alliance should not harbour any illusions about gaining power at this point. Consequently, they have entered a state of denial, opposing everything**

is impossible. Over the past 10 years, the country has been progressing towards the vision of a great and developed India. The arrogant alliance should not harbour any illusions about gaining power at this point. Consequently, they have entered a state of denial, opposing everything. Despite numerous opportunities to support initiatives like the abrogation of Article 370 and women's rights, they consistently opposed these measures. They resisted the banning of triple talaq, the establishment of the OBC commission, and extending reservation to Gurjar, Bakarwal, Pahari, and Valmiki communities in Kashmir. They also caused disruptions in the passage of the 'Nari Shakti Vandan' Act and opposed bills related to granting citizenship to Hindu refugees, implementing the one country one tax (GST), and achieving consensus on making a Dalit or tribal person the President.

Through surgical strikes and air strikes, Modi ji showcased India's strength to the entire world, sending a robust message against terrorism. However, during that critical period, Rahul ji, you

sought evidence from your own country. Asking for evidence on the valour of a serviceman is highly inappropriate and shameful.

India produced the vaccine, and it reached more than 100 countries, protecting our 140 crore population. An effort was made to discredit it by labelling it the Modi vaccine. Today, when someone goes to get vaccinated, they say, "Modiji, give me the vaccine; my immunity has ended." The Digital Economy and Direct Benefit Transfer were opposed by you. The construction of a new Parliament faced opposition, even though the entire nation is thrilled and proud

**I urge the people of the entire nation to hold Congress accountable within the five years of Parliament. They accomplished nothing except creating noise and boycotting sessions inside the Parliament**

to witness such a grand structure. You opposed the renaming of Rajpath to the 'Kartavya Path'. The 'Bharat Mandapam' and 'Yashobhoomi' were also attempted to be stopped through the court. The visionary 'Data Protection' bill was opposed by you, and finally, you opposed the consecration of Shri

Ram Lalla's life. The Congress is now in denial mode.

## **I urge the people to hold Congress accountable**

I urge the people of the entire nation to hold Congress accountable within the five years of Parliament. They accomplished nothing except creating noise and boycotting sessions inside the Parliament. When we were in the opposition for 10 years, we played the role of a constructive opposition. We supported positive initiatives and exposed your corruption. However, as there is no corruption in our governance, you found it convenient to stay away.

The INDI-Alliance is filled with ego, unable to tolerate the fact that individuals from humble backgrounds can lead the country. Their arrogance contends that only those from influential families can become Prime Minister. This attitude places them against the Bharatiya Janata Party. Modi ji has tirelessly worked to govern the country based on policies, implementing over 40 policies across

various fields. This contrasts with the 'policy paralysis' observed during the Manmohan Singh government.

## **NDA governs 17 states, covering 58% of the country**

While journalists, critics, and the INDI-Alliance may acknowledge our leader's achievements, I also express gratitude to the people of the country. Your repeated support and blessings have propelled the Bharatiya Janata Party and Modi ji. Currently, the NDA governs 17 states, covering 58% of the country's area and 57% of the population. We have achieved consecutive victories in Gujarat, held power in Madhya Pradesh for 30 years, secured multiple wins in various states, and received continuous mandates in Bihar, Maharashtra, Meghalaya, Nagaland, and Sikkim.

This consistent support and endorsement are a testament to the hard work, policies, and performance of Modi ji, resonating with the stamp of approval from 140 crore people, even if it goes unnoticed by the INDI-Alliance.

In conclusion, I would like to emphasise that the recent 'Bharat Jodo Yatra' initiated by the leaders of the Congress Party within the INDI Alliance seems to be aimed at unifying India. However, it is crucial to note the underlying motivations. The history of the Bharatiya Janata Party (BJP) dates back to 1950, and whenever the party engaged in movements, it was driven by a commitment to the country, principles, and the welfare of the people.

The BJP has a rich history of standing up for national causes, such as the martyrdom of Shyama Prasad Mukherjee for Jammu and Kashmir, the 'Save Goa' movement, Satyagraha in Kutch, the movement against cow slaughter, opposition to the Emergency, the fight against infiltrators in Assam, the Shri Ram Janmabhoomi

**In conclusion, I would like to emphasise that the recent Bharat Jodo Yatra initiated by the leaders of the Congress Party within the INDI Alliance seems to be aimed at unifying India. However, it is crucial to note the underlying motivations**

movement, the anti-corruption movement under Advani ji's leadership, the Telangana movement, and the Sabarimala movement. Importantly, the party has never undertaken agitations solely to gain political power; rather, these movements were driven by a genuine concern for addressing people's issues, upholding principles, and ensuring the safety and well-being of the nation.

Now, it is imperative for us to convey a clear message to the people of our nation. We must lay out the stark choices before them. On one side, there are dynastic parties, and on the other, the son of a humble mother who has risen to become the Prime Minister of our country. The decision is between a party from which corruption has flowed for 60 years – the Congress party – and Shri Narendra Modi, who, despite being in power for 23 years, stands untarnished.

**The choice is between an arrogant alliance engaged in appeasement politics and the Bharatiya Janata Party, steeped in patriotism and nationalism**

## **Modi ji rekindled the flame of patriotism**

The choice is between an arrogant alliance engaged in appeasement politics and the Bharatiya Janata Party, steeped in patriotism and nationalism. It's a decision between those who enter politics to gain something and a person who has dedicated his entire life to Maa Bharati. One side represents leadership that takes extended vacations abroad every year, while the other is led by a tireless individual who hasn't taken a single day off in 23 years.

On one hand, there is directionless politics; on the other, there is leadership that advances the creation of a great India under the guidance of a visionary leader – the Bharatiya Janata Party. As we enter the 'Amrit Mahotsav' of Independence, Modi ji has rekindled the flame of patriotism in every Indian's heart, instilled awareness of the freedom movement in every youth, and presented the nation's 75-year journey irrespective of the Party.

Moreover, Modi ji has implanted the resolve to build a great India in the minds of 140 crore people as we approach the centenary of

independence. This is a significant accomplishment. The collective consciousness, resolve, and efforts required to fulfil this resolution cannot be fostered by anyone else. Our leader, Modi ji, is sensitive, understanding the sentiments of the people, a visionary, and a hard worker who, even when making tough decisions, doesn't look back. He stands proud in front of China, conducts surgical strikes in the homes of Pakistan, implements demonetization for the welfare of the poor, and creates India's image as a global friend. During the challenging times of the pandemic, he extends help to more than 100 countries through vaccine aid. It is essential to convey this to every household and make them aware of the decisive leadership that is working tirelessly for the betterment of the nation.

After many years, the country has found leadership that venerates the power of mothers with a devotion akin to that of God. Narendra Modi ji, through the 'Nari Shakti Vandan' Act, has provided 33% reservation in the Assembly and Parliament. He has dismantled the centuries-old concept of caste by embracing the poor, youth, women, and farmers in essence, bringing forth the true spirit of the Constitution.

I know Modi ji, who is like the flame of a lamp, burning himself to dispel darkness. Just as the flame of a lamp never diminishes, Modi ji's work and thoughts are of unwavering intensity. They can never falter. I firmly believe that with Modi ji's upward thinking, upward working, and unwavering hard work, India will transform into a great nation by 2047, becoming a developed country that the world will look upon with pride, respecting the image of Maa Bharati.

With utmost humility, I request the people of the country for another mandate, emphasising that our sole aim is to serve the 140 crore citizens and elevate the nation. Only Narendra Modi ji can achieve this, and I am confident that you will carry this message door-to-door across the entire country. Let us, in the end, raise our hands high and shout 'Bharat Mata' with resounding fervour.

**Bharat Mata Ki Jai!**

# Glimpses of the BJP National Convention held in New Delhi on 17-18 February, 2024

PM Shri Narendra Modi being felicitated in the BJP National Convention  
at Bharat Mandapam, New Delhi on 18 February, 2024
