@Narendramodi

India's emphasis is on reform, perform and transform. Our approach to development is futuristic and is also aimed at building a better as well as more sustainable planet.

(17 April, 2024)

@JPNadda

Hon. PM Shri @narendramodi ji talks about development and progress while on the other side, there are those who are busy saving corrupts and families. With the resolve of "Abki Baar 400 Paar" the entire nation stands firmly with PM Modi ji..

(18 April, 2024)

@AmitShah

Due to massive corruption during the AIADMK and DMK governments, Madurai & Tamil Nadu could not develop as per their potential. I appeal to the people of Madurai to give the BJP a chance, make the lotus bloom, and have trust in the Modi guarantee.

(12 April, 2024)

@Rajnathsingh

Addressed a public meeting at Krishnagiri constituency in Tamil Nadu. Today's youth are not interested in traditional politics; they seek a politics that ensures both their own future and the future of India and only the Bharatiya Janata Party can fulfill this aspiration. The DMK has predominantly offered family-centric governance and corruption to Tamil Nadu. While the BJP says nation first, the DMK says family first.

(16 April, 2024)

@Piyush Goyal

Those raising questions on the repealing Article 370 are insulting the martyred soldiers and brave sons of the entire country deployed in the defense of Kashmir.

(7 April, 2024)

@BLSanthosh

Together Smt Indira Gandhi & Thiru Karunanidhi of @arivalayam played a finer game of gifting Katchatheevu islands to Srilanka though Bharath had a water tight case . This is the root cause of the problems & arrests faced by fishermen of Tamilnadu day in & day out.

'YAH! SAMAY HAI, SAHI SAMAY HAI'

The BJP Sankalpa Patra – 'Modi ki Guarantee 2024', has been widely welcomed across the nation for its extensive vision, futuristic programmes, and strong resolve to take India towards realising the dream of 'Viksit Bharat' by 2047. As soon as the 'Sankalpa Patra' was launched, it was applauded for its comprehensive approach, deep understanding of the nation's strength and its boundless possibilities, and faith in the capabilities of the masses to aspire and achieve what appeared unachievable just a decade ago. 'Modi ki Guarantee 2024', casts the dreams and aspirations of the people of India into the BJP's article of faith through innovative programmes, transformational agendas, and inspiring goals. While it focuses on the immediate needs of the masses, it has the vision of touching the horizon and transcending even beyond, making the nation not only think big but also accomplish and achieve. It represents the programmes and policies of a confident nation that can set goals for itself and work tirelessly to fulfil those goals. The BJP Sankalpa Patra – presented before the nation as Modi's guarantee, is set to take the nation to the next level of transformational journey in the 'Amrit Kaal', rededicating to the pledge of realising the dreams of 'Viksit Bharat'.

The BJP Sankalpa Patra is released as 'Modi ki Guarantee 2024'. The BJP National President Shri Jagat Prakash Nadda has rightly said that Modi's guarantee means 'guarantee pura hone ki guarantee'. India, under the charismatic and dynamic leadership of Prime Minister Shri Narendra Modi, has amazed the world with its remarkable achievements, which range from taking 25 crore poor out of multidimensional poverty, providing immense opportunities to youth, empowering the *annadatas*, shaping the course of women-led development in the country to the abrogation of Article

The BJP Sankalpa Patra – presented before the nation as Modi's guarantee, is set to take the nation to the next level of transformational journey in the 'Amrit Kaal', rededicating to the pledge of realising the dreams of 'Viksit Bharat'

370, the enactment of strict laws on crimes against women, Triple Talaq, CAA, Nari Shakti Vandan Adhiniyam and many other historic initiatives that are set to pave the path of Viksit Bharat in the days to come. The BJP Sankalp Patra has presented farsighted and unique solutions to challenges through the use of new and upcoming innovations and technologies. The goal of achieving a zero-electricity bill has found its fulfilment in PM Suryaghar Muft Bijli schemes, which even enable a user to boost his income. The gas cylinders may become a thing of the past as Modi's guarantees ensure the expansion of piped natural gas connections to all major cities and towns. The

expansion of free charging stations may herald an era of electric vehicles in the country, creating many green jobs while transforming the automobile sector. The expansion of the highly successful MUDRA and Svanidhi schemes may further strengthen women and low-income entrepreneurs by meeting their capital requirements for the growth of their businesses. The Sankalp Patra also ensures Modi's guarantee for senior citizens, Divyangs, and transgender people who will be included within the ambit of the Ayushman Bharat scheme. The futuristic vision for the agriculture sector can be seen in Modi's guarantee of making India a nutrition and food processing hub, along with the opening of Kisan Samridhhi Kendras and the promotion of Nano Urea, which may further transform the agricultural sector and make *annadatas* globally competitive.

India, at present, is standing on the cusp of its destiny, as the nation is confidently striding towards Amrit Kaal, a period of golden opportunity to transform the country's future. With unwavering commitment and collective effort, the Prime Minister, Shri Narendra Modi, has promised to turn the dream of Viksit Bharat into a vibrant reality. Every village, every family, and every citizen are intricately connected to this fabric of progress. The vision of creating social, digital, and physical infrastructure with the guarantee to build new satellite towns, a robust aviation sector, and bullet trains in all four directions of the country, along with the aims of achieving self-reliance in defence, edible oil, and energy imports, resulting in lots of lost opportunities and green jobs for the youth, While presenting the Sankalpa Patra, Prime Minister Shri Narendra Modi has rightly said that in the context of tensions and turmoil in various nations, India requires a strong government, which may guarantee the safety and security of its citizens abroad and secure the future of India. In light of the amazing achievements of the last ten years, the right time for India has come. In the words of the Prime Minister:

'Yahi Samay Hai, Sahi Samay Hai, Bharat Ka Anmol Samay Hai'. ■

BJP SANKALP PATRA 'MODI KI GUARANTEE 2024' RELEASED

SANKALP PATRA STRENGTHENS THE PILLARS OF A 'VIKSIT BHARAT': PM MODI

The Prime Minister Shri Narendra Modi launched the BJP's Sankalp Patra, "BJP's Sankalp - Modi's Guarantee 2024" for the 2024 Lok Sabha elections at the BJP Headquarter (Extn.) in New Delhi on 14 April, 2024. During the event, BJP National President Shri Jagat Prakash Nadda, Defence Minister and BJP Manifesto Committee Chairman Shri Rajnath Singh, Union Home and Cooperation Minister Shri Amit Shah and Union Finance Minister & BJP Manifesto Committee Convenor Smt. Nirmala Sitharaman were also present on the stage. Prime Minister Shri Narendra Modi personally dedicated the Sankalp Patra 'Modi ki Guarantee' for the Lok Sabha Elections 2024 to beneficiaries of the government's public welfare schemes. On the occasion, a film was showcased on the BJP government's remarkable achievements, illustrating the welfare and transformative initiatives undertaken in the last 10 years, as well as the resolutions adopted by the BJP to propel the nation towards 'Viksit Bharat' in the forthcoming years. Prior to that the Prime Minister also paid tributes to Baba Saheb Bhimrao Ambedkar on his birth anniversary.

BJP has delivered on every promise

Prime Minister Shri Narendra Modi emphasized that there is great anticipation for the BJP's Sankalp Patra throughout the country, as over the past two decades, the BJP has delivered on every promise with a solid foundation. The Sankalp Patra strengthens the pillars of a 'Viksit Bharat': youth power, women empowerment, the welfare of the poor and farmers. Shri Narendra Modi stated that the BJP's focus is on dignity and quality of life, as well as investment and employment. The Sankalp Patra emphasizes both the quantity and quality of opportunities, with a focus on infrastructure development for generating employment on one hand and promoting startups and global centres for high-value servicing on the other.

Addressing on the occasion, Prime Minister Shri Narendra Modi said, today marks a significant day as there is fervour for the New Year in many states across the country. Along with this, today is also the birth anniversary of Baba Saheb Ambedkar. BJP has presented its 'Sankalp Patra' for 'Viksit Bharat'. While extending his best wishes to everyone, Shri Narendra Modi congratulated Defence Minister Shri Rajnath Singh and his entire team for preparing the Sankalp Patra. Shri Modi noted that crores of people nationwide, driven by their deep affection for the BJP, shared valuable suggestions, showcasing their active engagement in shaping this vision document.

There is great anticipation for the BJP's Sankalp Patra throughout the country, as over the past two decades, the BJP has delivered on every promise with a solid foundation

It reflects the aspirations of the youth of Young India

The Prime Minister highlighted in BJP's Sankalp Patra that it reflects the aspirations of the youth of Young India. Over the past decade, the BJP government has lifted 250 million people out of poverty, demonstrating its commitment to delivering results. However, the work does not stop there; those who have been lifted out of poverty also need sustained

support to ensure that they do not slip back into poverty due to unforeseen circumstances. Shri Narendra Modi said just as a person may have received treatment in a hospital but still advised by doctors to take precautions despite being on the road to recovery, similarly, those who have emerged from poverty also require support to prevent them from slipping back into poverty for any reason. With this vision in mind, BJP has pledged to expand several poverty alleviation schemes. Modi's guarantees that the free ration scheme will continue for the next five years. The BJP government will ensure that the food plate of the poor is nutritious, satisfying, and affordable.

Under Ayushman Bharat, free treatment will be provided

Shri Modi underscored his assurance that Jan Aushadhi Kendras will continue to offer affordable medicines with an 80% discount, and the expansion of these centers will be undertaken. Modi's guarantees that under Ayushman Bharat, free treatment up to 5 lakhs will be provided. In line with this, the BJP has made a significant decision. Concerns about healthcare expenses for the elderly are addressed, as BJP has pledged to include every senior citizen above 70 years in the ambit of the Ayushman Yojana, regardless of their economic status, providing free treatment up to 5 lakh rupees. The BJP government has constructed 4 crore pucca houses for the poor, and based

on additional information from the states, they have pledged to build 3 crore more pucca houses, considering the expansion of families.

Free electricity

The Prime Minister emphasized that the BJP government has already ensured the delivery of affordable cylinders to every household, and now they will work on providing cheap kitchen gas through pipelines to every home. The BJP government has provided free electricity connections, and now they will work on reducing electricity bills to zero for crores of households and creating opportunities for earning from electricity. The PM Surya Ghar scheme for free electricity has been implemented, with 1 crore people already registered.

BJP is committed to accelerating work on this scheme, ensuring not only electricity in homes but also additional income through selling surplus electricity. Furthermore, concerning the expenses for petrol and diesel for scooters and cars, if one opts for electric vehicles, the arrangement for free charging will also be made available.

Shri Modi highlighted the transformative impact of the Pradhan Mantri Mudra Yojana, noting that it has empowered crores to become entrepreneurs over the years. PM Shri Modi underscored that the scheme has not only created crores of jobs but also turned hundreds of thousands into job creators. PM Shri Modi announced that in recognition of

The past decade has been dedicated to upholding women's dignity and creating new opportunities for them, and the next five years will focus on further empowering women

the scheme's success, the BJP has decided to raise the loan limit under the Mudra Scheme from 10 lakh to 20 lakh. This move aims to cater to the requirements of Industry 4.0 and provide a fresh impetus to the youth. The scheme will offer increased funds and resources to the youth in both urban and rural areas to pursue their chosen endeavors. Pradhan Mantri Swanidhi Yojana marks the first instance post-independence where it safeguards the dignity of street vendors, liberating them from the burden of interest. Today, individuals receive bank loans without providing any collateral. The loan limit for this scheme will be raised from 50 thousand and will also encompass rural areas. Modi honors those who have been

overlooked by others. This embodies the spirit of "Sabka Saath, Sabka Vikas" and reflects the essence of the BJP's Sankalp Patra.

Further empowering women

The Prime Minister emphasized that special priority will be accorded to differently-abled individuals under the 'Pradhan Mantri Awas Yojana' prioritizing their different needs. The BJP has conferred identity and dignity upon transgender individuals, and they will now be included in the Ayushman Bharat scheme to avail its benefits. India is setting an example for the world by prioritizing women-centric development. The past decade has been dedicated to upholding women's dignity and creating new opportunities for them, and the next five years will focus on further empowering women. In the past decade, 10 crore women have joined self-help groups, and the BJP will now provide training to

these groups for various services such as IT, education, health, retail and tourism. Currently, 1 crore women have become 'Lakhpati Didis,' and the BJP aims to elevate 3 crore more women to this status, ensuring their financial prosperity. This is Modi's guarantee. Under the Namo Drone Didi Scheme, women will be trained as drone pilots in every village. This initiative has not only enhanced the dignity and income of rural women but has also brought about a significant revolution in farming practices. Additionally, special provisions will be made to support women athletes and promote their participation in sports. Furthermore, in line with its commitment to improving women's health, the BJP will launch a campaign to eradicate cervical cancer.

Shri Modi emphasized that the Bharatiya Janata Party takes a comprehensive approach to the rural economy, empowering people across various sectors including agriculture, animal husbandry and fisheries. As part of this effort, BJP has extended the benefits of the Kisan Credit Card to cattle rearers and fishermen, ensuring their inclusion in the financial support system. The BJP government remains committed to supporting 10 crore farmers across the country through the Prime Minister Kisan Samman Nidhi initiative. In line with the vision of fostering prosperity through collaboration, a National Cooperative Policy will be introduced to expand the number of dairy cooperative societies nationwide. Additionally, the recent

launch of the world's largest food storage scheme underscores the government's dedication to ensuring food security for all.

India as a global nutrition hub

Shri Modi emphasized the BJP government's commitment to positioning India as a global nutrition hub by prioritizing superfoods. Over two crore farmers engaged in food grain production will receive comprehensive support to enhance self-sufficiency in pulses and oilseeds. Furthermore, the BJP plans to establish new clusters for vegetable cultivation and storage, promote the development of production

Shri Modi emphasized the BJP government's commitment to honoring the pride of tribal communities by initiating the celebration of Tribal Pride Day nationwide

clusters in the fisheries sector, and incentivize fishermen to engage in seaweed and pearl farming. In addition, the BJP government will prioritize natural farming methods and promote the widespread adoption of nano urea technology. The party aims to expand the reach of Kisan Samridhi Kendras to provide comprehensive support to farmers. Furthermore, the BJP's vision includes establishing India as a food processing hub, with food processing plants serving as catalysts for growth in rural areas.

Honoring the pride of tribal communities

Shri Modi emphasized the BJP government's commitment

to honoring the pride of tribal communities by initiating the celebration of Tribal Pride Day nationwide. PM Shri Modi announced plans to commemorate the 150th birth anniversary of Bhagwan Birsa Munda in 2025 on a national scale, further elevating the Tribal Pride Campaign throughout the country. The BJP will foster research on tribal heritage, establish a Digital Tribal Arts Academy, promote startups and self-help groups based on forest produce, and ensure the construction of over 700 Eklavya schools. BJP believes in the mantra of "Vikas bhi, Virasat bhi". BJP will establish Thiruvalluvar cultural centers worldwide and initiate various programs to enhance the global prestige of the Tamil language, the world's oldest language and a source of national pride. BJP aims to connect tourists globally with the country's heritage and elevate national sites like Nalanda to World Heritage status. It will prioritize the holistic development of tourist destinations based on tourism destination ranking and establish new ecotourism centers.

Fortifying 21st-century India

The Prime Minister emphasized the BJP's commitment to fortifying the bedrock of 21st-century India through three key types of infrastructure: social, digital and physical. This entails establishing new educational institutions and universities for social infrastructure while enhancing facilities near highways to ensure the safety of truck drivers and reduce accidents.

For physical infrastructure, BJP is spearheading the modernization of highways, railways, waterways and airways across the nation. Simultaneously, in the realm of digital infrastructure, efforts are underway to expand the reach of 5G technology while also laying the groundwork for advancements like 6G. Policies are being formulated with a focus on Industry 4.0. BJP is accelerating the digitization of government services, expanding the reach of Common Service Centers and scaling up initiatives like ONDC and telemedicine. This concerted effort aims to enhance the speed and scale of social, digital and physical infrastructure, thereby broadening their scope and impact.

Committed to establish new satellite towns

Unlike previous administrations, which viewed urbanization as a challenge, the BJP perceives it as an opportunity for growth and development.

Shri Modi said that the BJP government is committed to establish new satellite towns across the country, envisioning them as focal points for national development. Special emphasis is being placed on expanding the aviation sector, exemplified by recent agreements for over 1000 aircraft, which will not only bolster connectivity but also create numerous job opportunities. These sectors are poised to become dream centers for the youth residing in small towns across the nation. BJP aims to

extend the Vande Bharat train network to every corner of the nation, introducing three models: Vande Bharat Sleeper, Vande Bharat Chair Car, and Vande Bharat Metro. The construction of the Ahmedabad-Mumbai Bullet Train is progressing, nearing completion. The party has pledged to operate a bullet train in all four directions of India, marking a significant step towards self-reliance. BJP is committed to enhancing India's self-reliance across various sectors, encompassing defence, edible oil and energy imports.

Shri Modi said that the BJP government is committed to establish new satellite towns across the country, envisioning them as focal points for national development

These initiatives aim not only to bolster the nation's self-sufficiency but also to safeguard the environment. Additionally, they are expected to generate a significant number of green jobs throughout the country.

India as a global hub for emerging sectors

The Prime Minister highlighted the rapid growth of the electric vehicle (EV) market in India. A decade ago, only 2,000 EVs were sold annually, but last year saw over 17 lakh EVs sold across the country. To support this surge, charging stations and essential infrastructure for electric vehicles are being established nationwide. The BJP government is taking significant strides

HIGHLIGHTS

- "BJP's Sankalp Patra - Modi's Guarantee 2024" provides a comprehensive overview of the accomplishments of the NDA government and presents a vision for building 'Viksit Bharat' by 2047.
- This Sankalp Patra reinforces the four strong pillars of a developed India - youth power, women empowerment, farmers, and the underprivileged.
- This Sankalp Patra prioritizes both Quantity and Quality of Opportunities, aiming to create jobs through infrastructure development while also promoting startups and global centers for high-value services.
- BJP has now committed to including every individual aged 70 and above in the Ayushman scheme.
- "Jinko Kisine Nahi Pucha, Unko Modi Poojta Hai".
- India is setting a global example in Women-Led Development today.
- BJP is committed to transforming India into a hub for food processing.
- BJP believes in the mantra of "Vikas bhi, Virasat bhi".
- BJP never hesitates to make bold and challenging decisions in the best interest of the nation. For us the country is bigger than the party.

towards promoting free travel by introducing free home charging for electric vehicles through PM Surya. With the emerging field of electric vehicles, numerous new employment opportunities are set to arise nationwide. **BJP's commitment lies in positioning India as a global hub for emerging sectors worldwide. It's not long before India emerges as a global leader in industries such as green energy, electronics, pharmaceuticals, automobiles, semiconductors, innovation, legal insurance, contracting and commerce. India is swiftly approaching a future where it will house some of the world's largest economic centers, establishing itself as a major hub for Global Capability Centers, Global Technology Centers, and Global Engineering Centers. Moreover, India's ascent as a significant player in the realm of space science will unlock unprecedented opportunities, propelling the country into a realm of limitless potential.**

For the welfare of humanity

The Prime Minister emphasized the prevailing uncertainty and tension on a global scale, particularly in areas of conflict. Ensuring the safety of Indians residing in such tense regions stands as a paramount priority for the BJP. In times of global unrest, the necessity for a stable government with an unequivocal majority in India becomes even more pronounced. The BJP remains dedicated to forming a government that will

fortify the nation's economy and propel it towards progress and development. This Sankalp Patra from the BJP assures such a government. India, as a global ally, will persistently endeavor for the welfare of humanity. The Bharatiya Janata Party steadfastly takes bold and challenging decisions in the nation's interest, prioritizing the country over the party itself. BJP has enacted the Nari Shakti Act, revoked Article 370, and implemented the CAA nationwide. Upholding the principles of Reform, Perform, and Transform, India is poised to advance rapidly. Essential frameworks for effective governance, digital governance, and data governance will be established. BJP advocates for

Modi's mission aligns with the aspirations of the 140 crore citizens of India. The ambition of 140 crore countrymen is Modi's mission

the realization of the vision of one nation, one election, and views the implementation of a Uniform Civil Code as imperative for the nation's welfare.

BJP government implemented stringent measures to combat corruption

Shri Narendra Modi stated that corruption deprives poor and middle-class families of their rights. Over the past decade, the BJP government has implemented stringent measures to combat corruption. Scams worth thousands of crores at the national level have been effectively

curbed. The underprivileged are now receiving their entitlements, while those who exploited them are being held accountable and facing imprisonment. The unwavering commitment to cracking down on corruption is 'Modi's Guarantee'.

To shape India's destiny for the next millennium.

Prime Minister Shri Narendra Modi emphasized that he had proclaimed from the ramparts of the Red Fort that "Yahi Samay hai, Sahi Samay hai", to shape India's destiny for the next millennium. The BJP's Sankalp Patra will swiftly initiate its course after June 4, with the government already underway on its initial 100-day action plan.

Modi's mission aligns with the aspirations of the 140 crore citizens of India. The ambition of 140 crore countrymen is Modi's mission. The nation has witnessed the triumph of Chandrayaan and will soon take pride in Gaganyaan's achievements. India's warm reception in the G20 heralds its forthcoming efforts to host the Olympics with full vigor. The momentum of the new India is unstoppable. I present this Sankalp Patra to the 140 crore citizens as a testament to 'Modi ki guarantee'. The BJP has formulated this Sankalp Patra to transform the dreams of 140 crore citizens into reality. To ensure the welfare of crores of citizens of Maa Bharati and to realize the vision of 'Viksit Bharat', it is imperative that the people of the nation bolster the strength of the BJP and bestow their blessings upon it. ■

Entire nation acknowledges 'Modi Ki Guarantee, Guarantee Pura Hone Ki Guarantee': JP Nadda

Salient points of the address given by BJP National President Shri Jagat Prakash Nadda in the gracious presence of Prime Minister Shri Narendra Modi, Defence Minister and BJP Manifesto Committee Chairman Shri Rajnath Singh, Union Home and Cooperation Minister Shri Amit Shah and Union Finance Minister & BJP Manifesto Committee Convenor Smt. Nirmala Sitharaman on the occasion of the launch of BJP's Sankalp Patra "Modi's Guarantee 2024" for the Lok Sabha elections on 14 April, 2024. During his address Shri Nadda commended Hon'ble PM Shri Narendra Modi for his commitment to inclusive development, ensuring that even the last person in society is uplifted. He expressed confidence that the Sankalp Patra will contribute significantly to building a Viksit Bharat

Shri JP Nadda expressed his gratitude to PM Shri Narendra Modi, emphasizing that the welfare of the party has been the top priority for the Prime Minister. Shri Nadda paid homage to Dr Bhimrao Ambedkar on his birth anniversary, highlighting the party's commitment to Baba Saheb's principles of social justice and the fight for justice, regardless of being in power or not. Shri Nadda emphasized that the BJP is an ideology-driven party, and during every election, the party diligently works to advance its ideological foundations. He highlighted the Sankalp Patra as the manifestation of these political principles. The party has advocated for integral humanism and implemented it through initiatives like Antyodaya, working for inclusive development

For the welfare of the poor, PM Shri Narendra Modi extended the PM Garib Kalyan Ann Yojana, offering 5 kg of wheat, 5 kg of rice, and 1 kg of pulses to 80 crore people, lifting 25 crore individuals in India above the poverty line

under the motto of 'Sabka Saath, Sabka Vikas, Sabka Vishwas aur Sabka Prayas.' When Shri Narendra Modi became the Prime Minister in 2014, he pledged the government's commitment to uplifting villages, the poor, and marginalized sections of society.

There are no villages without paved roads

Shri Nadda noted that when the public gives a clear mandate, the results also become evident. In 2014, the party secured a vote share of 31% and won 282 seats in the Lok Sabha. In 2019, breaking its own records, the party achieved a vote percentage

of 37.3% and won 303 seats under the leadership of PM Shri Narendra Modi. He stated that under PM Shri Modi's leadership, 3.8 lakh kilometers of rural all-weather roads have been built. Shri Nadda noted that under PM Shri Narendra Modi's leadership, there are no villages without paved roads, reflecting a transformative shift in India's landscape. Similarly, efforts are underway to connect 60,000 new villages with paved all-weather roads. Shri Nadda highlighted that under PM Shri Narendra Modi's guidance, 2 lakh panchayats have been connected with optical fibre, along with internet facilities. He mentioned that for the welfare of the poor, PM Shri Narendra Modi extended the PM Garib Kalyan Ann Yojana, offering 5 kg of wheat, 5 kg of rice, and 1 kg of pulses to 80 crore people, lifting 25 crore individuals in India above the poverty line. Shri Nadda further highlighted that according to the International Monetary Fund, extreme poverty in India has decreased by more than one percent. Shri Nadda revealed that under the PM Awas Yojana, 4 crore Pucca houses have been constructed, with plans to continue this initiative in the future. Speaking about women's empowerment, Shri Nadda mentioned that out of 50 crore Jan Dhan accounts, 55.6% are opened in the name of women. Under the Ujjwala Yojana, 10 crore gas cylinders have been provided to rural women, addressing a long-standing issue under PM Shri Narendra Modi's leadership.

Pran Pratishtha of Ram Mandir took place

The BJP National President highlighted that a significant change has been brought in the lives of rural women by constructing 11 crore Ijjat Ghar so that they don't have to go for open defecation. Under the leadership of PM Shri Narendra Modi, concerns regarding dignity and human values have been addressed. Shri Nadda stated that the ideological foundation of the BJP is reflected in clear mandates yielding clear results. BJP opposed the notion of "Ek Desh Me Do Nishan Do Vidhan Do Pradhan" from 1951-52. Due to PM Shri Narendra Modi's determination, on August 5th, 2019, Article 370 was

abrogated. He revealed that the Palampur proposal had been adopted to glorify the path to building the Ram Temple. He highlighted that a long journey had been embarked upon with Palampur's resolution. Shri Nadda noted moments when Congress lawyers had stood up, attempting to halt the judicial process, claiming it would benefit the BJP. Shri Nadda emphasized that Congress had shown no concern for the nation, Ram Lalla's welfare, or India's culture and dignity. Shri Nadda pointed out that Congress had been engaged in vote bank politics, trying to obstruct the process. Under PM Shri Narendra Modi's leadership, the Pran Pratishtha of Ram Mandir took place on January 22, 2024.

"Naari Shakti Vandana Bill"

Shri Nadda highlighted that no political party had the courage to confront the issue of triple talaq; instead, they all engaged in vote bank politics. Despite the Supreme Court's directive to abolish triple talaq, it remained unaddressed until Prime Minister Shri Narendra Modi took decisive action to abolish it. Throughout 30 years, no party managed to enact legislation for women's rights or

No political party had the courage to confront the issue of triple talaq; instead, they all engaged in vote bank politics. Despite the Supreme Court's directive to abolish triple talaq, it remained unaddressed until Prime Minister Shri Narendra Modi took decisive action to abolish it

offer them reservations. Nonetheless, Prime Minister Shri Modi promptly implemented the "Naari Shakti Vandana Bill" within three days, according women 33% reservation in both the Lok Sabha and state legislative assemblies.

PM led the country in its fight against the pandemic

The BJP National President said PM Shri Narendra Modi enforced a lockdown during the COVID pandemic, prioritising humanity over the economic realm. Shri Jagat Prakash Nadda highlighted the significant strides made in healthcare under Prime Minister Shri Narendra Modi's leadership. He noted that historically, it took many years for vaccines and treatments to reach India, such as 25 years for the

Modi Ki Guarantee is considered as valuable as 24-carat gold: Rajnath Singh

Salient points of the address given by Defence Minister and BJP Manifesto Committee Chairman Shri Rajnath Singh on the occasion of the launch of BJP's Sankalp Patra " Modi's Guarantee 2024" on 14 April, 2024 for the Lok Sabha elections.

Defence Minister and BJP Manifesto Committee Chairman Shri Rajnath Singh emphasized that every promise in the BJP's manifesto carries the 'Modi Ki Guarantee'. In Indian politics today, the Modi Ki Guarantee is considered as valuable as 24-carat gold, making the BJP's manifesto the gold standard not only in India but globally as well.

Presenting a roadmap for building a self-reliant and robust India

Shri Rajnath Singh expressed gratitude to the party's National President Shri Jagat Prakash Nadda for entrusting him with the responsibility of Chairmanship of 'Sankalp Patra' Committee. Shri Singh highlighted that under the leadership of Prime Minister Shri Narendra Modi, all the commitments made to the nation in the Sankalp Patra of 2014 and 2019 have been honored. Bharatiya Janata Party has fulfilled its promises through its Sankalp Patra, presenting a roadmap for building a self-reliant and robust India, while also affirming its dedication to the development and welfare of every segment of society. The manifesto presented by the BJP five years ago in 2019, under the theme of 'Sankalpit Bharat, Sashakt Bharat' not only encapsulated the vision for India upon completing 75 years of independence but also outlined the aspirations for India in 2047. In line with this vision, the BJP government has diligently worked to ensure the fulfilment of all promises from 2019

The manifesto presented by the BJP five years ago in 2019, under the theme of 'Sankalpit Bharat, Sashakt Bharat' not only encapsulated the vision for India upon completing 75 years of independence but also outlined the aspirations for India in 2047

to 2024. The BJP stands by its words and actions, earning the confidence of the citizens, which is its greatest asset.

BJP's commitment to inclusive development and welfare of the poor

Shri Singh highlighted several key achievements of the Bharatiya Janata Party under the leadership of Prime Minister Shri Narendra Modi. These include the fulfilment of promises such as the abolition of Article 370 from Jammu and Kashmir and the introduction of the Nari Vandan Act, aimed at empowering women. Additionally, Shri Singh noted the construction of the grand Ram Mandir in Ayodhya and strides towards Atmanirbhar Bharat. He emphasized the BJP's commitment to inclusive development and the welfare of the poor, citing initiatives like the Pradhan Mantri Garib Kalyan Yojana, which provides free ration to over 80 crore people. Shri Singh praised Prime Minister Shri Narendra Modi's leadership in realizing the vision of a strong and visionary India

The manifesto presented by the BJP lays the foundation for Prime Minister Shri Narendra Modi's vision of building a Viksit Bharat by 2047, providing shape and direction to this ambitious goal

over the past five years.

Around 15 lakh suggestions received through various channels

Shri Rajnath Singh while presenting the new Sankalp Patra of the BJP, highlighted the extensive public consultation process involved in its creation. He mentioned that around 4 lakh suggestions were received through the Nammo app, while about 10 lakh suggestions came through video submissions, totaling 15 lakh suggestions through various channels. From these, key issues were selected and discussed, leading to the formation of the manifesto divided into 24 sections in which 10 social sections have been created which include poor, youth, middle class, women power, farmers, fishermen, deprived sections, and other backward and weaker sections. Administrative issues are divided into 14 areas, the Sankalp Patra talks about

the following:

- Universal brotherhood: India's relations with other countries.
- Secure India: Internal and external security of India.
- Prosperous India.
- Global manufacturing hub.
- World-class infrastructure.
- Ease of living.
- Development of heritage.
- Good governance.
- Healthy India.
- Quality education.
- Development of sports.
- Development of all sectors.
- Innovation and technology and
- Sustainable India where it is related to environment.

Modi's vision of building a Viksit Bharat by 2047

Union Defence Minister Shri Rajnath Singh said that the manifesto presented by the BJP lays the foundation for Prime Minister Shri Narendra Modi's vision of building a Viksit Bharat by 2047, providing shape and direction to this ambitious goal. While concluding his remarks, Shri Rajnath Singh lauded Prime Minister Shri Narendra Modi for his guidance during the preparation of the Sankalp Patra, expressing faith in his leadership to realize the vision of a Viksit Bharat. Shri Singh also praised the Election Manifesto Committee members for their diligent work in compiling, analyzing, and presenting the suggestions in a comprehensive Sankalp Patra for the public. ■

tuberculosis vaccine, 30 years for tetanus injections, and even 100 years for Japanese encephalitis. However, under PM Shri Narendra Modi's leadership, when the Corona pandemic struck, he swiftly formed a task force. Within just 9 months, the country developed its own vaccine. Through the administration of 220 crore double doses of the vaccine, PM Shri Narendra Modi has led the country in its fight against the pandemic. We also provided vaccines to 100 nations under the 'Vaccine Maitri' initiative. Shri Jagat Prakash Nadda highlighted the remarkable achievements of the vaccination drive, emphasizing its speed and digital support in providing 220 crore double doses of the vaccine. He reiterated the public's trust in the government's commitment, encapsulated in the

slogan "Modi Ki Guarantee, Guarantee Pura Hone Ki Guarantee Hai."

Transformation in India's global perception

Shri Nadda mentioned the transformation in India's global perception under PM Shri Narendra Modi's leadership. While previously seen as a following nation, India has emerged as a trailblazer with initiatives like Ayushman Bharat, the world's largest health coverage program. Over 55 crore people have benefited from the annual 5 Lakh free health coverage provided by this initiative. Shri Jagat Prakash Nadda emphasized that the Sankalp Patra will play a significant role in nation-building and contribute to the development of a "Viksit Bharat." ■

SANKALP PATRA 2024

10 YEARS OF GOOD GOVERNANCE AND VIKAS

80+ crore citizens are receiving free rations, 50+ crore citizens have joined the banking system, Rs 34 lakh crore directly transferred to people's accounts, 34+ crore citizens are covered under free health insurance, 4+ crore families now have pucca houses, 14+ crore families have access to clean tap water, 10+ crore women have clean cooking fuel, women in 11+ crore families living dignified lives after receiving toilets, 2.8+ crore families have been provided electricity, decisive steps such as banning Triple Talaq, 26 weeks maternity leave and 33% reservation for women in Parliament and state assemblies have been taken to empower women, 46 cr loans amounting to Rs 27 lakh crore have been given to MSMEs, 750 new higher educational institutions have been set up from IITs, IIMs and AIIMS to medical colleges and universities, 11+ crore farmers are receiving Rs 6,000 annually, 4+ crore farmers are protected with Fasal Bima, Rs 11 lakh cr has been spent on fertiliser subsidy, marginalised have been empowered through special schemes for traditional craftsmen, street vendors, labourers, SCs, STs, OBCs, PVTGs, divyang, transgender etc, Article 370 has been removed, LWE and other internal security challenges have been decisively curbed, 1.5+ cr citizens have been evacuated from distress situations, Ram Mandir has been built, ancient traditions and sites have been revitalised, economy is now the 5th largest, trading in rupee has started in 27 countries, UPI has gone global, 28 km of National Highways and 14.5 km of railway lines are being constructed everyday, 3.7 lakh km of rural roads have been built, unmanned railway crossings have been eliminated, port and airport capacity has been doubled, metro services have been expanded to 20+ cities, non-fossil fuel energy has been expanded 2.5 times, we have landed on the moon – the list in endless ...

Garib Parivar Jan

- Continue to provide free rations for the next five years under PM Garib Kalyan Anna Yojana
- Continue to protect Garib ki Thali
- Continue to provide access to quality housing under PM Awas, along with clean drinking water under Jal Jeevan Mission
- Zero electricity bills under PM Surya Ghar Muft Bijli Yojana
- Continue to provide free health treatment by strengthening Ayushman Bharat, Aarogya Mandirs etc

Middle-Class Parivar Jan

- Fulfilling the dream of owning a house through comprehensive measures such as cost reduction and regulatory reform
- Ensuring quality healthcare through AIIMS, Medical colleges and Jan Aushadi Kendras
- Promoting quality higher education by strengthening top educational institutions like IITs, IIMs, AIIMS, Universities etc and promote internship programs

Nari Shakti

- Empowering three crore rural women to become Lakhpati Didis
- Integrate SHGs with existing programs like FPOs, ODOP, ONDC, GeM, One Station One Product and service sectors like IT, retail, tourism etc.
- Implementing Nari Shakti Vandana Adhiniyam to ensure representation for women in the Parliament and State Legislatures

- Increasing women's participation in workforce as well as sports
- Focus on women's health including anaemia, breast cancer, cervical cancer and osteoporosis

Young Citizens

- Strict implementation of Public Examination Act 2024
- Continuing filling government vacancies transparently
- Employment opportunities by expanding the start-up ecosystem, manufacturing, infrastructure, tourism and services
- Doubling MUDRA loan limit to promote entrepreneurship amongst youth
- Expanding the Khelo India network and facilitating IOA for hosting Olympics in 2036
- Involving youth in nation-building through Mera Yuva Bharat (MY-Bharat)

Senior Citizens

- All elderly people above seventy years of age will be included in Ayushman Bharat health insurance scheme.
- Ensure ease of senior citizens through government services at doorstep and age-friendly infrastructure

Kisan Samman

- Sustained financial support under PM Kisan and PM Fasal Bima Yojana
- Incentivize crop diversification with price support

strategy

- Support farmers for self-sufficiency in pulses, oilseeds and vegetables
- Promoting millets as a superfood and making Bharat global millet hub
- Promote Natural Farming and use of Nano-Urea
- Expand the network of dairy cooperatives and eliminating diseases like Foot and Mouth Disease
- New National Cooperative Policy for “Sahakar se Samridhhi”

Fishermen Families

- Extending PM Matsya Sampada Yojana, including strengthening insurance and reducing infrastructural gaps
- Facilitating increasing income by developing processing clusters and encouraging other activities like pearl farming and seaweed cultivation

Shramik Samman

- Facilitating migrant workers, gig workers, auto, taxi, truck and other drivers registered under e-Shram to avail welfare schemes that they are eligible for
- Expanding SVANidhi for street vendors across small towns and villages

MSME, Small Traders and Vishwakarma

- Digital credit solutions and ONDC to support the growth of small traders and MSMEs
- Reducing compliances and simplifying the GST portal for small traders and MSMEs

- Strengthening PM Vishwakarma Yojana
- Transforming traditional handicrafts, toys and Khadi

Sabka Saath Sabka Vikas

- Preserving and promoting tribal heritage, including celebrating 2025 as Janjatiya Gaurav
- Varsh and establishing digital tribal arts academy
- Encourage start-ups and SHGs based on forest produce
- Expanding livelihood of OBC, SC and ST communities by measures like doubling the MUDRA loan and expanding PM SVANidhi and PM Vishwakarma Yojana, among others
- Divyangjan to be given priority under PM Awas Yojana for affordable and accessible housing solutions
- Transgender to be covered under Ayushman Bharat Yojana

Ease of Living

- Expanding piped natural gas connections to all major cities and towns
- Create new satellite towns as growth centers of development and employment opportunities
- Develop unified multimodal metropolitan transport system

Swasthya and Shiksha

- Augmenting all levels of healthcare institutions

from AIIMS to District Hospitals and Ayushman Arogya Mandirs

- Upgrading institutions of higher learning, building on our record of 7 IITs, 16 IIITs, 7 IIMs, 15 AIIMS, 315 Medical Colleges and 390 Universities

Prosperous and Industrial Bharat with World-Class Infrastructure

- Make Bharat the third-largest economy in the world
- Make Bharat a global manufacturing hub, and take a lead in emerging sectors like EV, semiconductors, electronics and mobile
- Expanding the start-up ecosystem to tier 2 and 3 cities through supportive credit and procurement policies
- Increasing railway capacity and modernize railway by launching new age trains like Vande Bharat, Vande Sleeper, Amrit Bharat, Namoo Bharat and Bullet train
- Expanding PM Gram Sadak Yojana to remote settlements
- Expanding the Expressway network to 15,000 km
- Achieving energy independence by 2047 through initiatives like ethanol blending, renewable energy, green hydrogen and energy efficiency

Vishwa Bandhu Bharat aur Surakshit Bharat

- Strengthening Bharat's position as a trusted global partner, voice of global south and first responder in crises
- Becoming permanent member of the UN Security Council
- Elevating Bharat's soft power including

- establishing Thiruvalluvar Cultural Centres globally
- Continue protecting Bharat by using all means to act against terrorist groups, Left Wing Extremist organizations and other external and internal security threats
- Establishing military theatre commands and ensuring robust infrastructure along borders
- Expanding domestic defence manufacturing

Virasat Bhi Vikas Bhi

- Developing more religious and cultural sites inspired by the Kashi Vishwanath Corridor model
- Holistic development of Ayodhya and celebration of Ramayana Utsav globally
- Development of thematic circuits like border, riverine, adventure, wedding and eco-tourism

Good Governance

- Zero Tolerance for Corruption
- Bringing a Uniform Civil Code as per Article 44 of the Constitution
- Implementing Bhartiya Nyay Sanhita expeditiously
- Making One Nation, One Election a reality

Balanced Regional Development

- Continue developing the North-Eastern region and maintaining peace
- Formulate a dedicated Purvodaya Master Plan for targeted and integrated infrastructure development of eastern India
- Transform our islands into premier global tourism destinations
- Protecting Himalayan ecology and developing coastal climate resilience

Technology and Innovations

- Launch Gaganyaan, the first human spaceflight mission and Bharatiya Antriksha Station
- Operationalise the Anusandhan National Research Foundation to build robust research
- Bharat as a global leader in AI, Graphene and Quantum technologies

Sustainable Bharat

- Ensure improvement of health and cleanliness of all major rivers on lines of Namami Gange
- Improving air quality across 131 cities ■

VIKSIT BHARAT@2047

Unveiling the roadmap Towards AMRIT KAAL

“This is the period in the history of India when the country is going to take a quantum leap”

“For India, this is the time, right time (Yahi Samay hai, Sahi Samay hai)”

-Prime Minister Narendra Modi

Prime Minister Narendra Modi, on 11th December 2023, launched the Viksit Bharat@2047 initiative, while emphasizing upon the vision of securing the “developed country” tag for India by 2047. The initiative encompasses various aspects of development, including economic growth, social progress, environmental sustainability, and good governance.

The vision of Viksit Bharat recognizes the fact that India is presently standing at an important juncture of economic and human development and that the next 25 years are instrumental in deciding India’s future in the long run. It foreshadows a future India from its forgotten past when India was considered a golden bird and excelled in trade as well as civilizational achievements with progress in education, medicine, astronomy, and all fields of significance. Since ancient times, India was a land of fertility, prosperity and progress inspiring other societies across the world. However, external pressures as a result of continuous invasions as well as gruesome colonial rule left India battered, bruised, and wounded. This is the vision of taking India back to its original position of being a Knowledge hub, an Economic Powerhouse and a Vishwamitra.

Why is this the ‘Amrit Kaal’ for India?

Amrit Kaal refers to the coming 25 years of the golden centenary of India’s Independence i.e., 2047, the 100th year of our Independence. These 25 years are a chance for India to achieve the vision of ‘Viksit Bharat by 2047 and ensure better living conditions, rapid growth as well as infrastructural and technological advancements.

India is one of the youngest nations in the world ready to reap demographic dividends. Therefore, it is the right opportunity for India to leverage its demographic dividend and channel its energy to achieve the dream of Viksit Bharat. Prime Minister Narendra Modi has rightly reflected that the Youth of today are the ‘agents of change’ and are going to be the ‘beneficiaries of

change’. The Modi government has heavily focussed on connectivity within India and outside India. Today, when all of the Global North is facing recessionary economies, India has witnessed over 7.6% economic growth. Furthermore, India is committed to becoming the 3rd largest economy in the coming years. Therefore, it is the right time for India to take collective steps to realise the dream of Viksit Bharat.

“Panch Pran’ in Amrit Kaal

Although India achieved Independence long ago, Indians were largely under a colonial hangover with a sense of defeatist mentality. There was a lack of collective mission to drive towards innovation and upliftment. The

erstwhile dispensation under INC and its ecosystem had built a self-doubting narrative where it was frowned upon to wear national pride and feel proud about the civilisational achievements. This created negativity and stifled growth. The Prime Minister, Shri Narendra Modi, in his address to the nation from the ramparts of the Red Fort on Independence Day 2022, has called on the nation to commit to 'panch pran' in the coming 25 years of the 'Amrit Kaal' which are as follows:

- A resolve of developed India
- Removing any trace of the colonial mindset
- Taking pride in our legacy
- Our strength of unity
- Fulfilling the duties of citizens with honesty

Among the 'panch pran', he clearly called for removing every trace of the colonial mindset while pursuing the goal of developed India. In the actions of the Modi government, one can see continuous efforts aimed at getting rid of the symbols of slavery. While Rajpath has been renamed as 'Kartavya Path' and Netaji statue occupies the place where the King George V statue was placed, many more initiatives have already been taken to pave the path of a 'New India'. The renaming of Race Course Road to 'Lok Kalyan Marg', the echo of Indian patriotic songs at the Beating Retreat ceremony, the adoption of the symbol of Chhatrapati Shivaji Maharaj by the Indian Navy by removing the ensign of slavery; the building of the National War Memorial, the change in time and date of the presentation of the Indian Budget, which had followed the times of the British Parliament for so many decades; liberating the students from the compulsion of foreign language through NEP; and the abolition of many obsolete colonial laws are some of the initiatives taken by the Modi government to get rid of the slave mentality that has haunted India for so many decades.

While one of the 'panch pran' calls for removing all traces of the colonial mindset, another one calls for taking pride in the nation's roots and the great legacy of India. It is in pursuance of this pledge that the legacy of the freedom movement, by building the Statue of Unity, renaming the islands of Andaman after Netaji Subhash Chandra Bose, building PM museum, museum for Tribal freedom fighters, Babasaheb's 'Panchtirtha', imparting grandeur to cultural and civilizational centres across India are some of the efforts which are not only creating a robust cultural infrastructure in the country

by modernising India with the spirit of 'Amrit Kaal'. The name 'Rajpath' which was the Hindi translation of the colonial 'Kingsway', indicated a mindset that wanted to rule over the people while the name 'Kartavyapath' reminds the citizens of the duty expected of them in realising the dreams of a developed India. In his 'panch pran', the Prime Minister, Shri Narendra Modi, has immensely emphasised the importance of inculcating a strong sense of duty towards the nation.

Under Shri Narendra Modi, there is wide enthusiasm amongst all sections of society and India is being considered as a serious player at the global level. With a sense of renewed energy and mission, it feels like India has achieved true Independence in 2014, with a clear vision. There is a clear policy and direction in governance and Indians have started wearing their identity proudly on their sleeves while celebrating our historical civilisational might.

How will we achieve the vision of Viksit Bharat?

Prime Minister Narendra Modi has laid down a detailed trajectory to attain the vision of Viksit Bharat by 2047. The focus of the Viksit Bharat Mission would rest upon energising GYAN, i.e., Garib, Yuva, Annadata, and Nari Shakti while leveraging upon India's demographic dividend.

Garib (Poor)

Even after 68 years of independence, i.e., in 2015, nearly 25% of Indians were multidimensionally poor. However, sustained efforts of the Modi Government, in the past 10 years have enabled more than 25 crore people to break out of the chains of multidimensional poverty. This has been due to poverty alleviation measures including the Pradhan Mantri Garib Kalyan Yojana, which has ensured food security for over 80 crore poor Indians, and the Pradhan Mantri Awas Yojana, under which 2.94 crore houses have been built in rural areas, whereas 1.12 crore houses have been built in urban areas.

The Government has realised that certain basic necessities like clean water, sanitation and health are indispensable in the process of manifesting the goal

of making India into a “developed country”, and thus, programs like the Jal Jeevan Mission and the Ayushman Bharat Mission have played definitive roles. While over more than 14 crore tap water connections have been provided to rural households under the Jal Jeevan Mission, over 50 crore Indians have been insured under the Ayushman Bharat Mission, thus securing public health and basic hygiene for the poor in the country.

Furthermore, emphasis has been laid on ensuring financial inclusion of the poor. For instance, over 50 crore Jan Dhan Accounts have been created, covering over 99% of Indian households, which have facilitated leakage-free transfer of more than Rs. 34 lakh crore under 312 welfare schemes. These Jan Dhan accounts, alongside the Direct Benefit Transfer mechanism used by the Government, have ensured welfare is enjoyed by the final beneficiary, without it falling prey to corruption, as was the case with erstwhile Governments, wherein only 15 paise, out of every 1 rupee, reached the intended beneficiaries.

Having secured basic human needs of shelter, food, and sanitation, the Government has also gone to great lengths to generate employment opportunities for the poor. For instance, the Modi Government launched Garib Kalyan Rojgar Abhiyan which boosted employment and livelihood opportunities for over 50 crore migrant workers and youth working in rural areas. Moreover, PM Svanidhi ensured street vendors with capital loans so that they could resume their businesses.

Therefore, today when the poor have been alleviated to better living conditions and are ensured security with dignity, the aim is to leverage their potential and make India inclusive in its development. To ensure this holistic development, the Government with its policy “Act for North-East and Act First for North-east” has developed an inclusive environment for the north-east people living in poverty and facing discrimination due to political neglect.

Yuva (Youth)

The envisioned goal of Viksit Bharat by Prime Minister Narendra Modi lies on the bedrock of Youth who have the potential to revolutionize the nation and bring positive development. The next 25 years are akin to the 25 years between 1922 and 1947, during which the Indian freedom struggle reached its peak and had a watershed moment in 1947, thus securing India its

independence.

Similarly, India needs to leverage the potential of its Amrit Peedhi, i.e., the youth of India, who shall herald India into Viksit Bharat. For instance, the National Education Policy was introduced in 2020 and the Union Budget for FY 2023-24 too, has highlighted ‘Amrit Peedhi’ as a priority under the ‘Saptarishi Goals’.

To ensure the vision of being job providers from job seekers, the platform of Mera Yuva Bharat was launched, which provided youth with tech-savvy skills. It gave the youth a ‘Phygital Platform’, an opportunity to connect digitally while exercising physical activity. Moreover, thousands of Atal Tinkering Laboratories were established in schools with innovative Skill India International Centres set up across different States to foster curiosity, creativity, and imagination.

The Youth of the country is vigilant, motivated, and contributes immensely to the growth of the nation and Indian youth are one of the most sought-after skilled resources in the world. Therefore, it is very important to channel the invigorating energy and innovative ideas of youth in the future nation-building.

Annadata (Farmers)

After Independence, India went into acute food shortage as it was highly dependent upon monsoon and natural calamities resulting in crop failures. Today, India has been witnessing robust growth in this sector in the last six years and has become self-reliant.

The Government has also taken steps to enhance the income support of the farmers through the PM-KISAN Scheme and ensured crop insurance through the PM Fasal Bima Yojana. Moreover, the e-NAM initiative has provided farmers with open access to markets across the nation to enable them to get more remunerative prices.

Further, the introduction of ‘One Nation, one Fertiliser’ under the brand name ‘Bharat’ in the entire country has

facilitated the availability of fertilizers with reduced costs. This indicates a vision of ensuring modern technology and transparency is inculcated in agriculture practice. This sector is now being seen with a scientific approach rather than a political sighted solution.

Now, Indian agriculture has become a consumption-driven sector in place of a population-driven sector, the Indian farmers have become multi-skilled, and small farms are multifunctional. The future Vision of India is to return to sustainable mechanisms of farming, for instance, the Natural Farming initiative has been taken up by the Modi government along with the promotion of allied sectors like fisheries, poultry, dairy, horticulture, pearl and weed farming.

Nari Shakti (Women Empowerment)

Women have been held in high regard in Indian civilisation and the testimony lies in female protagonists in ancient texts, reverence towards female deities who are shown as powerful and the sculptures in temples. The Modi Government since its inception has hailed women as Shakti avatars and ensured their needs are met while upholding dignity and development in the nation.

It passed the Nari Shakti Vandan Bill that reserved one-third of the seats of Lok Sabha and State Assemblies for women. Moreover, to ensure the safety, security, and empowerment of women, an umbrella scheme named 'Mission Shakti' was launched, it addressed issues affecting women on a life-cycle continuum basis.

The initiatives of the Modi government have increased women's literacy significantly and reduced the infant mortality rate drastically. Moreover, the Government has also taken various measures to improve the menstrual hygiene of women. For instance, over 9000 Janaushidi

Kendras were set up across the country to provide oxy-biodegradable sanitary napkins named Suvidha only for Re.1.

Additionally, out of 4 crore houses built under the PM-AWAS yojana, 75% of houses are either solely or jointly owned by women. It is very evident that India's future has a special place for women and ensuring their participation in contribution across all sectors has put us on the path towards progress. This was necessary via a paradigm shift in the outlook of viewing women's condition not from a victim mentality but rather as envisioning them as leaders of growth and development in various fields..

Most of the schemes targeted towards families have women as the center of the beneficiary, signaling that women hold the key to the household as well as the progress of the family. The Government, understanding the critical importance of cleanliness for women, launched the Swachh Bharat Abhiyan which provided over 12 crore toilets in all households. Also, the Government built over 10+ crore LPG connections under the PM-Ujjwala Yojana.

Now, after ensuring the security and empowerment of women, the further aim is to develop an ecosystem that supports women heralding an era of 'women led development. To pursue this vision, the Government has launched PM Mudra Yojana and Startup India. Startup India envisions promoting entrepreneurship amongst Women and helping them in starting a greenfield enterprise. In 2024, more than 84% of the beneficiaries of Standup India were women and more than 68% women entrepreneurs under the MUDRA scheme.

Thus, today, the Government has launched various initiatives ranging from Aatmanirbhar Bharat Abhiyan to Panchamrit Goals, however to attain the complete success of these initiatives, it is the 'Sabka Prayas' that would lead us to attain the state of 'Viksit Bharat'. Therefore, it is the bhagidaari of every individual doing his prescribed duties to the optimum level that would lead us to realize our collective dream of a Developed Nation by 2047.

In the following pages a saga of achievements in various sectors is being published for our esteemed readers which may give a deep insights into the developmental initiatives taken by Modi-government for realising the vision of Viksit Bharat @2047. → → →

Garib Kalyan **MODI'S** **GUARANTEE**

- India was able to pull 25 Crore people out of poverty during the Modi government tenure, as poverty fell by 17.89 percent.
- Free food grains were made available to 81.35 Crore Indians through the PM Garib Kalyan Anna Yojana.
- Under P.M.A.Y. program, almost 4 Crore pucca houses were constructed, with 75% of them being owned by women.
- More than 31 Crore Ayushman Bharat cards were issued, resulting in about 6 Crore patients receiving free care.
- 11.09 Crore families received tap water connections to the Jal Jeevan Mission, improving living standards and altering social dynamics.

Ensuring guarantee of Dignity:

- The Modi Government has constructed more than 11.45 Crore toilets under Swachh Bharat Mission Gramin and India has become ODF

(Open Defecation Free) country.

- Through the Ujjwala programme, the Modi government has contributed significantly to the health and well-being of women by providing 12.46 Crore free LPG connections.
- Through the Saubhagya Yojana, energy connections have empowered over 2.6 Crore households.
- The Modi government's initiatives like Pradhan Mantri Jeevan Jyoti Bima Yojana, Pradhan Mantri Suraksha Bima Yojana, and Atal Pension Yojana are establishing a comprehensive social security ecosystem with over 16 Crore, 34 Crore, and 5 Crore enrollments, respectively, by April 2023.
- Between 2013–14 and 2023–24, the Modi government boosted the budgetary allotment for social welfare by more than 200% under the Ministry of Social Justice and Empowerment.

Guarantee of Economic Empowerment:

- The PM-SVANidhi Scheme helped over 61 lakh vendors who were provided loans worth Rs.10,716 Crore, aiding economic reconstruction of the unorganized sector post-Covid pandemic.
- Through JAM Trinity (Jan Dhan-Aadhaar-Mobile), a direct benefit transfer (DBT) of Rs. 34 lakh Crore put an end to corruption, and intermediaries were removed.
- The Modi government has ensured last-mile financial inclusion through the PM Jan-Dhan Yojana, more than 50 Crore Jan-Dhan bank accounts in rural and semi-urban areas. ■

EMPOWERING INDIA'S AMRIT-PEEDHI

ENSURING PROSPERITY THROUGH EDUCATION FOR THE GENERATION OF TOMORROW

Unprecedented development in the field of education

- In the year 2024-25, the Ministry of Education was allocated Rs. 1,20,627 crore, which is more than 50% higher than the budget of UPA in 2013-14
- In comparison to the UPA (2013-14) there was a growth of 23.47% in the Gross Enrollment Ratio for higher education in 2021-22

Transparency in entrance examinations

- In 2016, the National Eligibility cum Entrance Test (NEET) was initiated, ensuring 'One Nation, One Exam, One Qualification'
- In 2022-23, the Common University Entrance Test (CUET) was initiated to facilitate easy entry into Central Universities by providing a single-window opportunity

National Education Policy: 2020

- Reformative changes in the 34-year-old education policy of 1986
- Devotion of teachers to holistic education
- Guidance based on Vidyanjali volunteers
- A flexible curriculum with creative integration of subjects, along with multiple entry/exit options
- Academic Bank of Credit Digitally storing academic records
- Skillful India: Basic literacy and numeracy

Development of Industrial Training Institutes (ITIs)

A 1.5 times increase in Industrial Training Institutes (ITIs) Central Universities by providing a single-window opportunity

11,847

2014

14,955

2023

Expansion of higher education institutions

2014 to 2023

IIT from 16 to 23 | IIM from 13 to 20

IIIT from 9 to 25 | AIMS from 8 to 23

Establishment of new campuses of IIT in Zanzibar (Tanzania) and Abu Dhabi (UAE) marks a historic beginning in the internationalization of higher education.

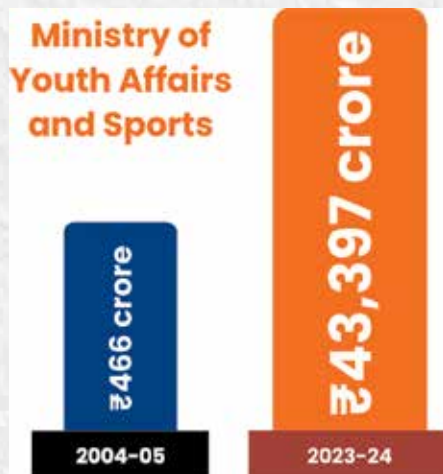

- Expansion in higher education with 390 universities
- Since 2014, more than 5,700 new colleges have been opened, which means approximately 2 new colleges every day
- There has been an increase of 112% in MBBS seats and 127% in PG seats.

PROVIDED SKILL DEVELOPMENT AND NEW EMPLOYMENT OPPORTUNITIES TO THE AMRIT-PEEDHI

Unprecedented increase in budget allocation

In the first nine years of the NDA government, 8,82,191 vacant positions in the central government were filled, which is 46.5% more than the first nine years of the UPA

Skill India Mission

PM Kaushal Vikas Yojna

Free skill training for youth

1.38 crore youth trained

More than 54.27 lakh individuals were upskilled and reskilled

PM Mudra Yojana

Initiatives to promote entrepreneurship

From 2018 to 2023, loans were provided to **28.89 crore** beneficiaries

Approximately **₹17.77 lakh crore** worth of loans were disbursed in the past five years

67% of approved loans were given to women

Startup India

Creation of more than **9.5 lakh jobs** so far

INDUSTRIAL CORRIDOR

Development of new industrial nodes in India

Development of 11 Industrial Corridors

National Security **MODI'S GUARANTEE**

The consecration ceremony of Bhagwan Shri Ram Lala was completed on January 22, 2024 in the presence of Prime Minister Shri Narendra Modi and there was an atmosphere of joy and happiness from across the country and abroad

Apart from DRDO, the government also encourages research and innovation in the private sector and academic institutions while emphasising co-production through joint ventures with foreign partners.

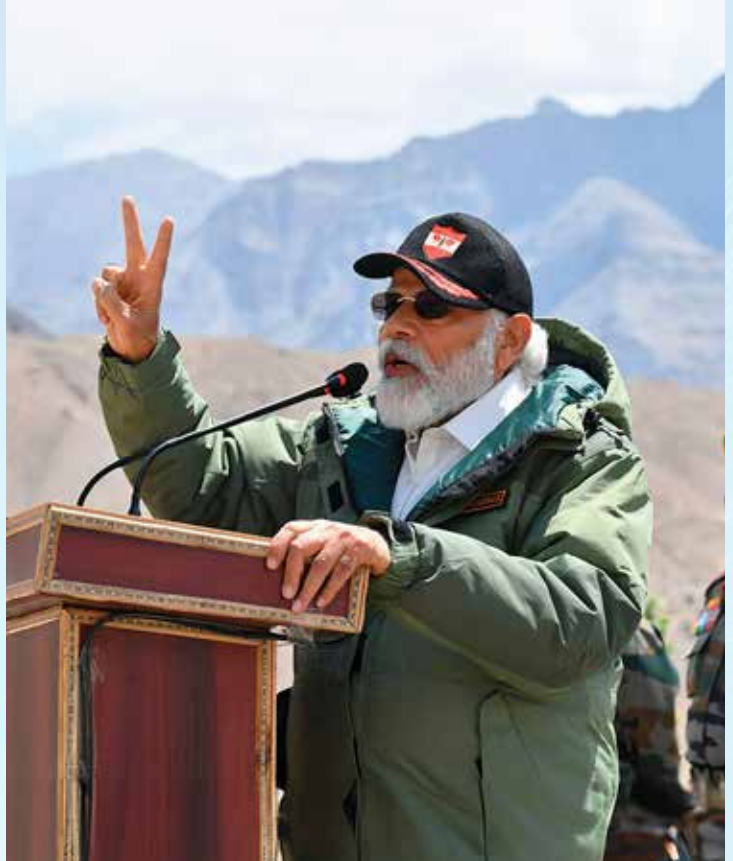

- Under the Defence Corridor, a target investment of Rs. 20 Thousand Crore has been set in the coming 5 years in Uttar Pradesh and Tamil Nadu.
- Expressing gratitude towards the martyrs, the 'National War Memorial' was established in the country.
- The demand for One Rank-One Pension was fulfilled - Soldiers were given respect by fulfilling the decades-old demand for One Rank-One Pension.

Guarantee to Strengthen the Defence Sector

- The defence budget for 2023-24 was reduced to approximately Rs. 6 Lakh Crore. For the first time, the government has decided to increase the budget for defence capital and revenue expenditure to Rs. 3.8 Lakh Crore.
- With the creation of the post of C.D.S., coordination among the armed forces has become easier.
- Demand for bulletproof jackets fulfilled - Approval was given for the purchase of bulletproof jackets made by the Army in the year 2009.
- Approval for the purchase of modern weapons, approval was also given for the purchase of Rafale and other state-of-the-art weapons for the army.
- Now we are moving rapidly towards the ability to make indigenous weapons. Approval for the purchase of 83 Indian-made Tejas fighter aircraft for the Air Force was given in January 2021 at an estimated cost of Rs. 47,000 Crore.
- The Indian Army received the first batch of Chinook helicopters in 2020. India has 15 heavy-lift Chinook helicopters, which can carry heavy machinery in addition to cannons and armoured vehicles.

Harmony and Respect are Guaranteed

- Violence in Kashmir has now declined by 80%, civilian deaths have declined by 89% and over 6,000 terrorists have surrendered.
- On October 21, 2018, the National Police

Memorial was dedicated to the nation to the brave policemen who laid down their lives protecting the integrity of our motherland.

Guarantee of Better Facilities to The Soldiers

- Approval to increase the facility of government accommodation for war-injured soldiers from 3 months to 1 year.
- Now, 4 times as much financial assistance has been provided to the families of martyrs or disabled soldiers, amounting to Rs. 2 to Rs. 8 Lakh.

Defence Equipment Availability and Infrastructure

- Now, the expenditure on border infrastructure in the country has increased almost 4 times.
- In February 2021, permission was given to export indigenously manufactured light combat aircraft Tejas, cannon, ammunition, tanks, missiles, anti-tank mines, and other products to friendly countries.
- Now, the surface-to-air Akash missile, air-to-air missile 'Astra', anti-tank guided missile 'Nag', and 'BrahMos' are ready for export.
- Border Roads Organisation's 28 infrastructure projects worth Rs. 724 Crore ease the Army's access to remote areas. ■

Cultural Rejuvenation MODI'S GUARANTEE

The consecration ceremony of Bhagwan Shri Ram Lala was completed on January 22, 2024 in the presence of Prime Minister Shri Narendra Modi and there was an atmosphere of joy and happiness from across the country and abroad.

- The inauguration of the first Hindu temple of Abu Dhabi by Prime Minister Shri Narendra Modi marks a cultural milestone for the entire humanity. This is an initiative of the Modi government and cooperation between India and UAE made possible by strengthening ties between the people of both countries.

- The 900 crore Kashi Vishwanath Corridor was inaugurated in December 2021, increasing domestic tourist arrivals from 60.95 lakh in 2018 to 7.16 crore in 2022.
- 12,000 crore project launched with the aim of connecting Uttarakhand Chardham Highway Development Project
- “Mahakaleshwar Temple Corridor” was inaugurated in Ujjain at a total cost of ₹856 crore, as a result of which, the number of annual devotees there increased three times to 1.5 crore.
- Development of five holy places related to the

life of 'Bharat Ratna' Babasaheb Dr. Bhimrao Ambedkar as 'Panchtirtha'.

Guarantee of Cultural Harmony

- Rich tradition like celebrating the birth anniversary of Bhagwan Birsa Munda as 'Janjatiya Gaurav Divas' and 'Veer Bal Diwas' in memory of the martyrdom of Guru Gobind Singh's Sahibzade Baba Zorawar Singh Ji and Baba Fateh Singh Ji will commemorate those who sacrificed their lives for the society and culture is receiving the due respect.
- Modi government unveils plan to build Maa Kamakhya Devi Corridor in Assam, demonstrating commitment to cultural preservation.
- The Modi government reiterated its commitment to Indian heritage by installing 'Sengol', a symbol of Indian culture, in the new Parliament House.
- The Modi government has taken notable steps to strengthen cultural ties between Kashi and Gujarat with Tamil Nadu, exemplified by the Saurashtra Tamil Sangamam program in 2023 and Kashi Tamil Sangamam program in 2022.
- During his visit to the United States of America in June 2023, Prime Minister Shri Narendra Modi declared the establishment of a Chair of Tamil Studies at the University of Houston, emphasizing the global importance of the Tamil language and the promotion of Indian languages and culture on the global platform.
- The Modi government has taken many important steps towards securing the ancient heritage of the country. The Modi government is continuously engaged in bringing back the ancient artifacts taken abroad illegally, so far 238 artifacts have been brought back from different countries.
- The inauguration of Sharda Temple in Kashmir by Prime Minister Shri Narendra Modi is a great example of inter-religious harmony and cultural rejuvenation.
- The first International Yoga Day has been celebrated since 2015 due to the proposal of Shri Narendra Modi Ji in 2014 in UNGA and in 2023 he led a yoga session at the United Nations Headquarters, which created a Guinness World Record.
- Kartarpur Corridor, inaugurated in 2019, sees 1.3 lakh pilgrims by December 2022, with ₹18.6 crore provided for its security.
- The restoration of Hindu temples in Cambodia symbolizes the Modi government's commitment to preserving the links between global civilizations. This initiative reflects a proactive approach to safeguarding cultural heritage beyond national boundaries.
- Development projects like Omkareshwar, Srisailem, Baidyanath Dham, Kalika Mata Temple and river cruise in Varanasi reflect the Modi government's dedication to cultural restoration and spiritual revival, which was nowhere seen under the UPA regime.
- Aadi Mahotsav provided a national platform to Indian tribal culture. 1,000 artisans with over 300 stalls participate in Aadi Mahotsav 2024, promoting entrepreneurship and innovation.
- Due to the tireless efforts of the Modi government, three 'Saroops' of the holy Granth Sahib of the Sikh community have been brought back to India from Afghanistan.
- Now devotees from abroad can also donate langar and service to the holy religious place Shri Harmandir Sahib. For this, F.C.R.A. has been given by making important changes in its rules.
- The Modi government has given relief in G.S.T. to religious institutions which feed free food to more than 5 thousand people every month. GST has been kept away to be charged on langar and prasad to such institutions. ■

GOOD Governance MODI'S GUARANTEE

- In order to reduce identity in government programs, Jan-Dhan, Aadhaar and Mobile (J.A.M. Trinity) were integrated into the Direct Benefit Transfer (D.B.T.) cash transfer system. D.B.T. has so far helped Rs. 35.38 Lakh Crore.

- India has become a global leader in digital democracy. Public Digital Infrastructure (PDI) successes like UPI Aadhaar, CoWin App, Fastag, Dig iLocker, Bharat Bill Pay, etc. The CoWin application helped people around the world, not just Indians. According to a Nasscom report, with the significant contribution of PDI, India will become an \$8 trillion economy by 2030.

- Every Central Ministry, Department, or PSU has been ordered to procure 25% of MSMEs, including 3% from women, and 4% for SC/ST owned MSMEs, under the Public Procurement

Policy, which encourages MSMEs, which are the pillars of social justice and economic self-reliance. In 2013–14, SC/ST-owned MSMEs purchased ₹80.45 Crore, which increased to Rs. 1,545.36 Crore in 2022- 23. Agriculture, cottage industries, folk arts, and heritage were also protected.

- The biggest tax reform implemented by the government in independent India, the Goods and Services Tax (G.S.T.) fulfilled the promise of one country, one market, and one tax. Consumers have saved 4% on their monthly home bills since the GST went into effect. Today there are 9.37 Crore income tax payers in the

country, up from just 5.26 Crore in 2014, thanks to the government's extensive tax reforms and simple online tax payment systems. With GST, the dreaded Inspector Raj was guaranteed to end.

- A mechanism known as the National Single Window mechanism allows investors to receive integrated permission from 20 state agencies and 28 central departments of the nation, facilitating trade and investment. In the World Bank's Ease of Doing Business rankings, India has risen from 142nd to 63rd place as a result of the government's extensive reforms. Through November 2023, over 2.55,000 approvals have been granted through this site.

- Government e-Marketplace (GeM) enhances transparency, efficiency, and speed in the public procurement system. Since its launch in 2016, till now, 2.1 Crore orders worth Rs. 7.9 Lakh Crore have been placed on this portal, and government departments have saved Rs. 80 thousand Crore. 1.44 Lakh women-led MSEs have registered under the Womaniya program since 2019.

- The objectives of Mission Karmayogi are to modernize the Indian Civil Service, encourage a culture of learning, and offer skill development adapted to new demands. The goal under this is to hire roughly 46 Lakh people in five years, from 2020–2021 to 2024–2025. On the iGOT Karmayogi platform, 28 Lakh students have registered, and 35 Crore training minutes have been used by users.

- 54 Lakh youth have acquired skills through retraining, while 1.4 crore youth have received training under the Skill India Mission. Twenty core ministries and agencies of the central government oversee large-scale skill development initiatives. 3000 new industrial training facilities have opened as a result of this program.

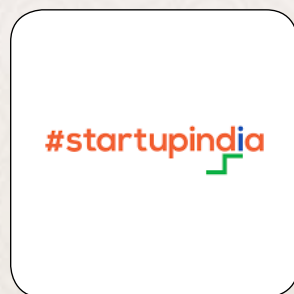

- In order to create a top-tier academic research and innovation ecosystem, many new institutes were opened, including seven Indian Institutes of Technology (IITs), sixteen Indian Institutes of Information Technology (IIITs), seven Indian Institutes of Management (IIMs), and fifteen All India Institutes of Medical Sciences (AIIMS). moved. In addition, 390 institutions have been founded around the nation.

- Opened a significant amount of new institutions. To create a top-tier academic research and innovation ecosystem, seven Indian Institutes of Technology (IITs), sixteen Indian Institutes of Information Technology (IIITs), seven Indian Institutes of Management (IIMs), and fifteen All India Institutes of Medical Sciences (AIIMS) have joined forces. moved. In addition, 390 institutions have been founded around the nation.

- India is now the world's third-largest single system thanks to Startup India. In India, over 1.25 Lakh businesses and 110 unicorns employed 12 Lakh workers. 12,000 patents were awarded to startups based on their discoveries. India is now the preferred destination for international investors because of the growth of the startup ecosystem.

- The MyGov portal serves as an engagement platform for Indian residents, encouraging

their participation in democracy. The portal was created in 2014 and collaborates with a number of ministries and government agencies to gather public feedback and inform policy decisions.

At present, over 3 Crore persons have registered on the platform and confirmed their involvement in the initiatives undertaken by the Modi administration.

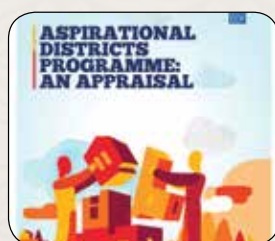

- 'Sabka Saath, Sabka Vikas' is the motto of the Aspirational Districts Program (ADP), which seeks to rapidly and efficiently rehabilitate the 112 most impoverished districts in the nation. It was introduced in 2018 with the goals of accelerating development in 112 impoverished districts, minimizing disparities in regional growth, and promoting balanced development. 'Champions of Change' is the moniker given to their performance, which has resulted in notable advancements in health, employment, and socioeconomics.
- The Modi administration has launched a major drive to repeal outdated laws that date back to the British colonial era in an effort to make the purpose of the law to be punishment rather than punishment. Prior to this, 1,200 laws had been repealed by the government, and 1,824 laws had been marked for review. The Indian Civil Protection Code recently took the role of the Code of Criminal Procedure (CrPC). The new laws have resulted in 313 modifications overall.
- In order to rank among the top nations in the Logistics Performance Index, the nation is developing into a world-class multimodal connectivity hub thanks to the Pradhan Mantri Gati Shakti Yojana. The nation's logistics industry must untangle the intricate network of 60 government and supporting organizations, 37 export promotion councils, and 500 certifying bodies in order to collaborate with more than 16 ministries

to share information and develop strategies for implementing infrastructure projects.

- The goal of the One District, One Product (ODOP) program is to encourage equitable regional development throughout all of the nation's districts. The aim of this effort is to facilitate the socio-economic development of all areas by choosing, branding, and endorsing a minimum of one product from each district. There is enormous export potential now that 1,102 items from 761 districts nationwide have been recognized by the ODOP effort.
- Unadulterated energy availability and independence: In 2010, the nation's solar energy capacity was 11 MW, but by 2020, it had grown three thousand times to 35 GW. In July 2021, the solar tariff in India dropped from Rs. 7.36/kWh in the fiscal year 2015 to Rs. 2.45/kWh. India fell from 137th place in the 'Getting Electricity' ranking in 2014 to 22nd place in 2019. By 2030, the government wants to manufacture 50 lakh metric tons of hydrogen fuel through the National Hydrogen Mission.

- User authentication is offered by Meri Pehchaan, the National Single Sign-On (NSSO), on the Jan Pariksha, e-Praman, and Digi Locker platforms. The site was launched in 2022 and has merged with 7,760 services. It has facilitated 90 Crore transactions and serves over 28.60 Crore customers. Its use can prevent certificate misuse and ensure that extraneous paper is not used against the environment.

- To encourage mobile governance in India, UMANG (Unified Mobile Application for New-Age Governance) was introduced.

Established in 2017, the facility offers reasonably priced access to more than 1,882 e-services. Up till January 2024, this platform handled transactions of ₹407.09 Crore.

- The nation is creating eleven industrial corridors based on the ideas of perform, change, and reform. The Delhi-Mumbai Industrial Corridor serves as an example of how industrial cities, ports, power plants, high-speed train service, regular air service, and eight-lane expressways are all being created in these corridors.
- In order to use Made in India to create an independent defense system, 41 ordinance factories have combined to form seven government firms. Private companies were encouraged to build fighter aircraft, airplanes, and other associated equipment under the Strategic Partnership Policy. Through the Srijan Portal, new entrepreneurs are finding work in the country's research and military, drone manufacturing, and other industries.

- Cultural tourism has been stimulated by the expansion of pilgrimage cities such as Varanasi, Ujjain, Ayodhya, etc. Due to the economic activity in these towns and regions, a large number of jobs were created, which marked the beginning of the social transformation process. According to data provided by the Tourism Department, Varanasi welcomed a record 7.12 crore domestic visitors in 2022. ■

PROTECTING THE ENVIRONMENT OUR RESPONSIBILITY

According to the Atharvaveda, “The Earth is our mother, and we are her children.” India’s philosophy and lifestyle have always been inspired by the concept of environmental protection and enhancement. In the past decade, under the efforts of Prime Minister Shri Narendra Modi, India has become a leading nation in taking concrete initiatives towards environmental conservation and climate change.

- The installed capacity of solar energy has increased by over 2300% since 2014 after the establishment of The International Solar Alliance (ISA)
